"...They really DO care about helping others"

"Over the years I've worked with Terry and Edwin on many different projects. And, frankly, the thing that makes all their offers so compelling is **their genuine desire** to help others succeed and their unmatched professionalism.

They really DO care about helping others and they always go the extra-mile to over-deliver.

"...a definite winner considering all the value"

Hi Terry and Edwin,

You guys have outdone yourselves this time!

As a product creator & copywriter, I'm always looking for ways to create good products and templates to help me get my work done quickly.

Not only you have provided a whole membership system, you've thrown in sales letters, graphics, templates and so much more!

This will surely jumpstart anyone who is new in Internet marketing without going through all the nitty-gritty product creation process and technical barriers.

A definite winner considering all the value you are already giving to your customers.

Anyone who misses this 7 day offer will probably knock their heads into the wall for passing up this great buy!

What People Saying About This Incredible Private Label Package?

"You've blown the doors off this one!"

Hey Terry and Edwin,

You've blown the doors off with this one.

It's like the who's who of Internet Marketers and Coaches, all right on top of their game, inside that membership area.

The course materials are top notch - you can't go wrong learning from these professionals. **Highly recommended.**

"...my advice is get this now!"

Terry and Edwin,

Last year I bought a similar deal which was only a resell rights license to a membership site, and that has made me an extra \$7531.12 so far without any effort, **so my advice is get this now - it's sure to be snapped up fast!**

Dave Gale

"...do not kick yourself for missing this!"

Terry,

I think **you out did yourself** on this one..

It is becoming harder to write serious testimonials for people, as I see so many "fake" ones, or those that are written as part of the 'click', but I have to tell you that this offer of yours **is totally worth it.**

The audios alone are actually worth the investment if people only take the time to listen to them.

But the fact that this is a business that anyone can run with

and all the work is practically done for them is insane.

Without a doubt, if you need someone to give you that first lift up and deliver everything for you on a platter, then do not kick yourself by missing this. You will be the only person to lose out.

If you actually work with this offer and invest some time in marketing your site **you cannot fail to earn some income from it.**

"...a perfect business model for anybody!"

Wow Terry and Edwin,

An incredible amount of valuable information jam-packed into one website!

You've managed to gather together roughly 45 individuals who are at the top of their respective fields and got them to 'spill their guts'.

But what's impressive here is that you developed this website into a membership site... a tactic that many online marketers use to create continual profit streams. And to top it off, you've managed to pull off a 'coup' by making it into a PLR product! **Wow! :-)**

This is a perfect business model for anybody - for those with little experience in marketing to even the 'seasoned' marketer who doesn't have time to create their own membership site!

Developing membership sites can be one of the most tedious tasks a

marketer can attempt and it can take months or even years to research because you need to create the content, develop the salesletter, create the graphics, etc, etc, etc! You couldn't possibly make it any easier to start a profit generating business within days of initial setup!

I can't imagine anyone passing up on this PLR membership package, if they do - they shouldn't be in this business!

Why? Cause who wouldn't want a business for 'pennies on the dollar' that gives someone the rights to have their own membership site and keep ALL the profits, to be able to change the salesletter any way they choose, to have the flexibility to sell monthly, yearly or even lifetime memberships (and keep ALL the profits)!

There isn't enough space here to express my enthusiasm for such a well thought out product that anybody and their kid brother can use to make money on the net! Thanks for keeping the 'bar high' and setting a standard by creating this exceptional product!"

"...I'll Bet You'll Sell Out The First Day!"

Wow Terry,

You have always over delivered with your fantastic products in the past, but I must say you've outdone yourself this time!

You have somehow managed to get experts in every field to spill their secrets! The content presented in these interviews is top notch! It really contains everything anyone needs to know to start their own Internet business.

I can't believe you're offering Private Label Rights for a membership site, for this price. This means that anyone can start

making a residual income immediately and you've done all the hard work for them. I'll bet you'll sell out the first day!

Thank you for offering such a fantastic opportunity!

“24-48 Hours From Now, Your Own Membership Website Could Be Raking In Multiple Payments Of \$10-\$27 A Month. Or Maybe You Prefer A Landslide of \$97-\$197 Payments!”

“I don't know whether to laugh or cry!”

Hey Terry and Edwin,

I don't know whether to laugh or cry!

I've just spent several months, and well over \$1500, creating my own membership site and yet it doesn't look as good (or work as well) as your TBBS membership site.

I guess I've got a fair bit of work left to do to get mine up to scratch. Don't suppose you'd let me in on who your programmer is would you?

"You guys have thought of everything"

Terry, Edwin and Nathaniel,

Never in my years of Internet Marketing have I seen such a complete package. You guys have thought of everything. **There is something here for every level of marketer.**

I have personally spent hundreds of dollars getting the information that is included here in the membership download section. Even if a person did nothing with the information except use it for their own personal and business development it would be worth several times the investment.

But giving people the ability to not only resell the site to members, but also rebrand the site makes this truly a no-brainer. Even selling a few sites will pay the person back their investment and the rest is pure profit. There is really no real way a person could fail.

I have been a member of other sites that deliver about 1/10th of the content and charge 50 dollars per month. **People will easily be able to sell hundreds of these per month at 20 dollars (or more) per month.**

People will pay hundreds (or thousands) of dollars to have a site made for them that brings back nothing. Having a site already loaded with content with a monthly residual is why a membership site like this one will ensure that anyone smart enough to buy rights will make a considerable income. You have done the majority of the work for them! Even a brand new person can become a major player right off the bat.

I will be curious to see how long the 350 rights last at that low of a price. My guess is that once people realize just how remarkable this deal is at this price, that you won't make the 7 day cut-off.

Congrats on an amazing site that is going to make a lot of people happy.

"This is truly a business in a box"

Terry,

This is truly a business in a box.

I have been inside this site. I have personally seen the huge 16 modules of pure content.

My Favorites are Module 2: .AFFILIATE BUSINESS and Module 3: .BUSINESS

DEVELOPMENT

There is over 14 volumes with over 45 cd's just in those 2 Modules alone!

You will definitely learn from true experts in each and every Module.

"...probably the best member site so far!"

This is probably the best member site I have seen so far on the internet.

All the BIG marketers are represented, with ONLY high quality products, all for you to tap into. And as if that wasn't enough, **giving a PLR license to the member site is almost to good**

to be true....

If you are **NOT** making money on the internet, I would suggest this: Rush in and buy your own member site, all set up and ready to go - **forget all other "must buy offers" and set up your new member site and watch your business grow.**

I wish a membership website like this, with such a low price existed when I started. That would have saved me tons of money and time.

Imagine having Mike Filsaime, Simon Hodgkinson, Jerry Gislason, Willie Crawford and many other Great marketers, guiding you in which ever area, you want information about. This member site contains a huge panel of the top experts you can learn from.

Now imagine, that you can have a PLR license to the a member site, with your name on it....

Brilliant Terry - Just brilliant :-)

"...before you come to your senses!"

"Terry - what have you done this time?

We've always been confident you know what you're doing, but this time ... are you sure you REALLY know what you're doing?

To have all this top quality content on your own membership site would make it a bargain for the money, but demanding such a low price for PLR rights for the whole lot, INCLUDING the ready-made membership site? It seems crazy.

Anyway Terry, we're telling everyone we know to snap it up before you come to your senses!"

"Everyone knows that in order to make money online, **you need a proven system. 7 Days Only has created such a system that anyone can use to succeed online.** I highly recommend this amazing business system, which is like a business-in-a-box that you can use to propel your online business and create your own success."

"...I swore outloud. Honestly. "

"Terry!

I'm rarely shocked anymore by new product launches, but after you notified me about your private label membership site sale, I swore out loud. Honestly.

A complete, "ready to go" business like this is pretty much unheard of in the IM world.

Everyone else is continuously selling methods and techniques regarding membership site building and product creation, **but no one is actually PROVIDING the FINISHED PRODUCT! They wouldn't dare give up the golden goose.**

You've basically provided anyone that purchases one of these membership sites the ability to **go from ZERO to GURU almost overnight!**

No one struggling online can make any more excuses. This really is "IT"...

Congrats,

"...massive value for such a small investment"

Terry and Edwin,

Wow! Are you kidding me?

You guys have taken all the obstacles to creating a mega-business and instantly removed them!

I'm all about shortcuts when it comes to achieving tasks that make me money. And this one takes the cake.

I'm talking about having the ultimate internet marketing business model handed to me on a silver platter.

It's the learning curve that prevents so many people from achieving success and the curve is steep when it comes to membership sites.

Not anymore. No need to worry and stress over finding quality content or maintenance, or designing a website, paying someone to write my sales copy, installing and tweaking a membership script, etc!!

If I were to pay someone to do all of this for me, I would be very "deep in the money hole". **But what you're asking for this instant high quality, plug-n-play membership site is a real no-brainer.**

Oh, and your Bonus "business strategies" training course to help owners market their business is priceless. You really cover all the critical lessons that anyone will need to be profitable with this like how and where to get traffic and customers, how to setup profitable joint-venture partnerships, how to recruit affiliates, etc.

I've read that most people who come online, looking to make extra income, are only \$500/month away from bankruptcy. It's a shocking figure. Just \$500 a month would change their life!

This membership site is the answer. Look, only 50 customers at \$10/month = \$500! It just takes 50. 100=\$1000 a month! That's job-quitting income for many.

Anyway, you've made this "dead easy" for anyone to have their very own 24/7 profit-pulling business.

This is a massive value for such a small investment!
