

"Discovered! The Simple '1-2-3' Method For Setting Up Video On Your Website Quick... Guaranteed!"

Here's the power this software grants you...

- Compress the heck out of any video file** so it plays online, but keeps the original quality level.
- Add Player Controls** like a VCR. (Stop, Play, Fast Forward, Rewind.)
- Automatically Generate the HTML Code** to copy and paste on any webpage.
- Automatically "Upload"** your video to any web page with just one click.
- Make it simple for visitors to watch**, just press play! That's it. There's no need to download a large file or run a big program like Media Player, QuickTime, or Real Player. (Examples Below)

Easily Publish Video On Webpages, Blogs, eBay Auctions And More!

- Increase conversions by placing video examples of your products on your sales page.
- Email friends and family video of your holidays.
- Email friends and family video of your kids playing around the house, their sporting events, and other accomplishments.
- Instead of emailing your friends and family video, why not place the video on your personal blog?
- Close the sale of your house or cottage faster by giving a video tour online.
- Introduce your company personnel to clients with video for a more personal feel.
- Add video to your eBay auctions and see an instant increase in high paying bids.
