Dear Fellow Internet Entrepreneur,

What I'm about to tell you, may change your entire life *FOREVER*.

Because there's a sea change is sweeping across the internet, transforming thousands of lives and businesses, and it lies...in a **simple software** that allows the 'little guy' to make...

MAXIMUM Income With Minimum Effort...

Now before I tell you about this software and with your permission, I'd like to share something pretty "eye-opening" with you and maybe even **contrary to what you've been taught** or what you currently believe.

What I'm going to teach you about is **"how" to get the most money by doing the least amount of work online.**

But first you should really...

Clear Your Head, Open Your Mind and Forget Everything You've Ever Learned About Making Money Online...

This is not a joke!

I know, it's sometimes hard to do and maybe a little bit weird to actually be asked to do something like this but, I'm really serious about this and you'll understand why shortly.

You see, I've spent **hundreds of thousands of dollars and thousands of man-hours** in programming, research and development and testing this software so rest assured you can look but you won't find anything that comes even slightly close, by a hundred miles.

That's why I can say it's...

The Undisputed, Most Powerful Software Of It's Kind!

See, normally if you were on any other website, you would probably be getting a whole bunch of reasons why you should buy now, blah, blah, blah. But the truth is, I like my customers to know and understand the sheer **magnitude** of what they're truly in for with this comprehensive "little" software of mine.

Because on the surface **it looks like any normal kind of software**, it can do quite a few things in relation to keywords, which I'll tell you about later, but the to be bluntly honest, no one and I do mean **NO ONE has ever come close to this software.**

So listen closely because, I'm not going to feed you a bunch of pure 'hogwash' about some phony push-button software that supposed to create a magical business for you while you sleep.

That kind of "stinkin-thinkin" will only get you to failure even faster and I won't let that happen to you!

Before we get into the real meat of this though *let me ask you this...* **Do you know what it really takes to make serious amounts of money online?**

I'm talking life changing amounts of wealth, generational wealth even?

Here's a hint - It's not a fancy website or to have lots of money to invest. It's not even a big list or any kind of specialized knowledge.

Nope!

It's called "leverage."

...And it's really all you need to become successful online.

"This Thing is One of The Most *Powerful* Research Tools Ever Created.."

"It's a very RARE thing when something comes out that really impresses me...

...but it just happened. I've been secretly beta testing an amazing research tool for the past week. And all I can say is... **wow**. This thing is one of the most powerful research tools ever created. Yes, ever."

[John then goes on to say...]

"Here's My Prediction... It will quickly become:

- ▶ The **#1 tool** for anyone building 'VRE' sites for making money with AdSense.
- ▶ The **#1 tool** for anyone that wants to make money selling ebooks or other info-products.
- ▶ The **#1 tool** for anyone that wants to make money promoting affiliate programs.
- ▶ The **#1 tool** for anyone that wants to generate tons of free traffic from the search engines.
- ▶ The **#1 tool** for anyone wanting to build huge, targeted opt-in email lists.
- ▶ The **#1 tool** for anyone wanting to make money from consulting and teaching others how to do business online."

- John Reese
Internet Marketing Extraordinaire

(*Well-known for earning 1 million dollars in 24 hours!)

The thing is, on the internet, having leverage is like the biblical story of...

"David and Goliath"

Do you remember that story?

David, a mere human, was able to defeat the larger and *seemingly* invincible Goliath who was of gigantic proportions and had slain countless others before him...**but David defeated him with just a simple sling and a rock.**

Yep, nothing more than that!

All he used was leverage. With his sling, he swung a rock with such deadly accuracy and speed, he toppled the evil giant and became king.

...And making a great living online is no different.

Because to defeat your opponents online...that is...the larger companies and more experienced marketers...the only rocks you need to throw are **keywords**.

...Or rather **keyword phrases**. Keyword phrases are *your* secret to phenomenal online success. The best part is, there's an almost **limitless supply of keyword phrases** at your disposal...

But the only problem with that is that you have to find them first!

That's where the leverage comes in. Leverage is your sling (this software), and you have to use that sling to toss those rocks (keywords) at just the right places and at just the right speed.

If this sounds difficult, don't worry *because* I know a secret that can help put your mind at ease.

Here's the...

"Truth" About Keywords That No One Wants To Talk About...

Now there are a few secrets I'd like to share with you today but this one is by far, **the most important secret of them all.**

Right now, there are ordinary people just like you, who are virtually shoveling incredible amounts of money with just keyword phrases and pay per click advertising, into their bank accounts.

"By incredible, I mean, a **whopping four, five or even a six-figure income** each and every month, using nothing but a computer and one '**jealously guarded**' little software that builds massive lists of relevant keywords with the click of a mouse."

5 Important Facts About Pay Per Click Advertising You Must Know To Survive Online...

Fact #1 - Pay per click advertising is one of the most powerful ways to reach your target audience (*people who are looking for something to buy*) because it can put your marketing message in front of over 1 billion users online in only a matter of minutes!

Fact #2 - Advertising through pay per click generates a higher than average response and sales.

Fact #3 - The key to success with pay per click advertising is to build MASSIVE, quality keyword lists and unleash them on to the search engines and on to your target market.

Fact #4 - Pay per click advertising allows "anyone" to make an income from home, privately, and watch it grow into CEO level income! (*Yes, if you have a job right now, you can bet your lunch money that if you follow what I say, you can make more money than the overpaid CEO of your company!*)

Fact #5 - Keywords are the building blocks of the internet. Without them, you couldn't find a darn thing...but with them you can dominate the search engines and suck in traffic and income like clockwork.

Don't believe me? That's okay because here's...

PROOF of The Power of Keyword Lists and Pay Per Click Advertising...

(I used a special tool to achieve this...I'll tell you about it later)

The Secret Is In The List...The Keyword List!

That's because these "PPC Marketers" (pay per click marketers) use their keyword lists to advertise any and every product that you can possibly think of online.

And All they do compile those keywords and **advertise other people's products -OR- their own** using **tiny text ads** through advertising networks like Google Adwords, Yahoo Marketing Solutions and others.

They sell things like...

Antiques	Certificates Health & Beauty	Sports Memorabilia
Art	Home & Garden	Collectable Cards
Baby Products	Jewelry & Watches	Stamps
Books	Music	Tickets
Business Supplies	Musical Instruments	Toys
Cameras	Pottery & Glass	Travel
Coins	Real Estate	Video Game
Cars	Specialty Services	Photos
Info Products	Sporting Goods	Cell Phones & PDAs
Collectibles	Computers & Networking	Clothing, Shoes & Accessories
Ceramic Crafts	Equipment	Pillows
Stuffed Animals	Consumer Electronics	Rugs
DVDs Movies	Office Supplies	Leads
Entertainment	MP3 Players	Cell Phones
Flowers		

...And they're making a great living online, without a website, without an email list

and without any formal 'business' to speak of.

**Advertising this way gives you direct access to over
1 BILLION "money-in-hand" internet users worldwide...**

(actually it's **1,173,109,925** internet users worldwide according to InternetWorldStats.com)

Imagine...capturing just a small fraction of the spending power of those people!

We're talking millions of potential smackerooz in your pockets if you follow what I'm saying.

Now, I'm pretty sure that by now you're probably thinking that it all sounds so great but it's probably really difficult to do.

How Anyone Can Find Thousands of Profitable Keywords To Generate Massive Amounts of Traffic and Income Online!

So how do you do this too?

Well, *that* question used to be pretty difficult to answer. It was a time consuming endeavor and demanded that you spend **countless nerve wrecking hours** pondering over keyword possibilities only to find a few keywords that were too darn expensive for the average person to advertise, much less spend their valuable time researching.

As a *matter of fact* it was downright impossible to do it in your spare time, you needed hours and hours of time and most people, whether you already have a business or you're just starting one, don't have that kind of time to devote to keyword research.

So to answer this question, and the cries of people just like you, I created...

Here's A Quick Run Down of The Projects

1. **Project #1 - Analyze Pay Per Click Listings** - Easily find low-cost and high to moderate traffic keywords that will make you money.
2. **Project # 2 - Create A Keyword List** - Easily build 50,000 + keyword lists for your website needs.
3. **Project # 3 - Select A Keyword List** - Quickly grab your keyword list and prepare it for your Adwords campaigns and page builder software - With just a couple clicks you're done!
4. **Project # 4 - Analyze Keyword Competition** - Allows you to quickly see how hard it will be to rank well for a specific search term. You can easily see if your competition is ranked well by "accident", or if they're going to be tough to outrank. This can save you hours of wasted research time.
5. **Project # 5 - Spy on Adwords Competition** - Monitor which keywords, and how long your competitors are bidding on them in Google Adwords. Then, take that list of guaranteed profitable keywords and plug them into your own Adwords campaign! ***(This project alone could make you a fortune!)***

"Keyword Elite Is Also Compatible For All Countries, Just By Changing the "Adwords Region" from the Drop Down List To the Country You Prefer..."

Come on...Did You Think I Would Forget You Guys?

"That's Incredible, But Let's Get To How Much This Is Gonna' Cost Me Brad..."

Is this going to be some mega-expensive monthly service plan?

The answer, my friend, is a resounding NO!

Quite frankly and I'm sure you'll agree, you're actually getting **5 of the most comprehensive keyword research tools on the planet...** All rolled up into one, and although I could very easily charge over \$497 for it - I won't do that today.

After all, given the fees and retainers that top keyword researchers charge and the money many 'well-to-do' internet marketers are willing to pay for such leverage, I'm sure you can see why even the regular price is a steal.

But...

While I was building this program... I had some time to think about it and I realized that if you are anything like I was when I was getting started and I found a tool I needed - you just can't afford to pay a whole lot for it but you also *can't afford to miss out on it.*

So...Since we're leveraging the internet here and since I'm able to keep costs down by making this available for download and not on CD... I'm going to drop the original already discounted price of \$297 to only **\$176** for the entire software **INCLUDING Free Lifetime Upgrades,**

Anyone Can Use This and Profit

Remember earlier when I said that, "Right now there are ordinary people just like you and me who are making incredible amounts of money using keyword phrases and pay per click advertising?"
