Perfect Uninstaller V6.1

Perfect Uninstaller is a better and easier way for you to completely uninstall any unwanted application that standard Windows Add/Remove Program can't remove.

Have you ever been bothered with software applications that can't be uninstalled by the standard Windows Add/Remove Programs? You are in the right place!

What Perfect Uninstaller can do for you ?

- Uninstall / remove any unwanted application in your PC
 - Forcibly remove unwanted programs that cannot be uninstalled completely from "Windows Add or Remove Programs" control panel applet.
 - Clear registry entries and drivers that the applications left over
 - Show detailed information of a certain application installed in your computer
 - Completely remove **Adobe Reader, McAfee, AOL Toolbar, AVG Anti-Virus, Norton 2006/2007** and much more difficult to completely uninstall applications!
- Start your free trial now!

With Perfect Uninstaller, you can uninstall any unwanted applications in your system easier and faster. The standard Add /Remove Program can not often completely uninstall all applications and broken registry keys. Unlike your own PC Add/Remove Program, Perfect Uninstall can not only uninstall the applications, but also clean the registry files left over themselves. It will protect your PC from corrupted registry errors, improving your PC performance and speed!

Features And Benefits

- Faster than the standard removal applet that comes with Windows.
- Provide different ways of application view to accord with your use habit: by Icons, by List, by Details.
- Remove programs that could not be removed by Add/Remove program.
- Completely clean the empty / corrupted registry entries that a certain application left over.
- Protect your registry from empty / corrupted errors and improve your PC performance.
- Forcibly remove hidden application installed in your system.
- Fast point to the folder where application installed..

Testimonials :

Yes, it runs faster than the standard windows Add/Remove Program and completely removes some unneeded software in my computer. In a word, PU is an easy but powerful uninstall tool.
Wilson Smith----- DC, US.

I really wanna say "Thank you", coz Perfect Uninstaller removed all unneeded applications in my computer, and now it runs so smoothly. Don't worry about the empty registry files anymore!
David ----L.D, UK.

I have many unneeded software in my system, and I try to remove them with Windows Add/Remove Program, however it doesn't work for me until I try Perfect Uninstaller.
Sabrina ----NY, US.

Extremely easy, all detailed information is listed on the user interface, just one mouse click on the "Uninstall" button. Good job!
Louis ----GE.

[More Testimonials](#)

- Check details of a certain program installed in your computer to decide whether to uninstall it or not.
- Easy of use and friendly user interface.
- Show details about currently installed applications.

Compare With Window Add/Remove Applet

	Perfect Uninstaller	Add/Remove Applet
Ease Of Use	Great	Poor
Speed	Great	Poor
Show Details Of Application	Yes	No
Forcibly Remove	Yes	No
