

performance and causing computer crashes.

The registry size keeps growing when you use Windows. When the registry becomes very large, your computer's performance will be decayed and unstable. Some computer users even spend a lot of time trying to go through the registry and edit it manually. Not only can this be a daunting task, it is also a risky one.

• Why Use Registry Easy™?

Registry Easy™ uses a high-performance detection algorithm that will quickly identify missing and invalid references in your Windows registry. With a few easy steps Registry Easy™ will scan your entire Windows registry for any invalid or obsolete entries and provide a list of the registry errors found. After that you can choose to clean list items with selection or automatically repair them all.

For your convenience and protection, Registry Easy also provides a backup mechanism for any repaired files so that you can easily recover any changes if required.

Registry Easy™ Features and Benefits

Registry Easy™ will Automatically Speed up , Clean & Repair Your PC Registry of the following:

- **Windows Installer Errors**
- ActiveX Errors
- **ActiveX Control problems**

CUSTOMER TESTIMONIALS

Registry Easy™ program found over **1300 problems** with my computer and was able to fix them all. I'm now able to use my system without being afraid that it's going to crash in the middle of something.

- *Mike Todd - San Francisco, US*

First of all thanks for **the system startup feature**, I had all kinds of junk starting up in the background and now that I removed them it made my computer run much faster!

- *Brian - Illinois, US*

Your program scan is **very fast** and so far it has **fixed many problems** in my computer! In a word, excellent!

- *Daly Lau - NY, US*

It is no exaggeration to say that my computer and internet surfing now run about **10 times faster** since I used your software. I can't thank you - enough for your great program!

- *Cretina - Wisconsin, US*

It can scan and repair your computer fast! Many thanks!

- *Prit Spears, France*

Nice little app. It found and was able to clean-up stuff my other reg. cleaner couldn't. I had some stuff I've been trying to get rid of for weeks and RegistryEasy worked like a charm!!! Highly reccomend!!!

- *claudiapatx*

MAN! this program is so fast and so easy to use, i just had to leave a comment

- *mimrah*

And about the RegistryEasy program, using vista I've had some problems with Vista taking up to much space and memory usage. I had task managers up before and after using this program looking at my CPU usage and memory. My CPU usage went from a constant 13% to 3% and my memory went from 1.43GB to 1.13GB. This program checks more things then most system clean ups and gives a resuly 10x more effective then optimizing my computer.

- *btLyger*

RegistryEasy really works well for me. I just ran it on my Lenovo running Windows Vista Home Premium. It worked without a hitch. It even caught a lot that my other free registry missed. I am very happy with this application.

- *John*

Great job, this app is very functional. I had a problem with application which was always in startup and I couldn't delete this. Registry Easy repaired it easy:) Thanks

- *Moomphas*

Program was quick and seemed to do a good job of finding errors. It will make a good addition to my arsenal of tweaking and repairing utilities.Thanks Registry Easy for the fine program.

- *Opinion Easy*

Great program! It helped find quite a few legit errors on my Win XP SP2 system. Upon invoking the suggested repairs, my computer's boot up sped has improved immensely. I highly recommend this program.

- *Eric*

After installing it on this machine and purposely mocking some things up to see how the program would handle that, I've become more impressed.It did speed up reboot-time from 4 minutes and some seconds to 2 minutes and some seconds (close to 3 minutes), by getting rid of a pile of hard-to-find clutter left by old software.

- *Biggest Baddest Wolf*

I have to say, I have tried a bunch of other so called Registry mechanics or fixers. None can compare to Registry Easy. I am not one to trust anything that sounds too good to be true. So I checked into every file that an error was found in. I even scanned the Registry Program with anti virus software, and an anti adware program. And the results of all these scans? The Registry Easy program was free of adware, spyware, or any kind of viruses. So, after checking out the to see if the program was clean, and it was; I then ran the program. After finding over 1200 errors, it fixed those. So I went on even further with Registry Easy, and I used the Evidence Cleaner, the Junk File Cleaner, and the Duplicate cleaner. After cleaning up over a gig of wasted memory, I wanted to make sure everything was ok; Not only were all programs ok. My computer is actually 40% faster than before running the Registry Easy. Since then, I have ran Registry Easy twice a week. Why so much? Well, i download a lot from the net. Plus, I am a person who is not really all that computer savvy. So I do it to protect my pc. And it gives me a big relief to know my computer is that much faster, and that much more protected. I have M.S., so Registry Easy has also gave me a little relief from the stress of my computer. Registry Easy is even easy for me to use. Thank you for your time and consideration.

- Joe Wirkus, Sweetwater, TN.
