It defies belief, but this could be YOUR reality *sooner* than you think cos...

This **Secret Weapon** Is The Missing Link!

Perhaps the skeptic in you is violently protesting...

"Brad, cut the crap. There's no way my checks and sales reports are gonna look like yours!"

I feel ya.

It seems like only yesterday when I felt like throwing in the towel because my checks just wouldn't get any bigger no matter how much harder I tried!

Trying Is NOT The Answer...

I've walked a mile in your shoes before, so I know exactly how downright frustrating it is to 'try' and keep 'trying'.

Fact: The key to HUGE checks and windfalls of profit is really MORE traffic!

Think about it...

Having all the traffic you want allows you to make all the profits you want.

It'll make marketing your products and services seem almost effortless - you'll know exactly how and who to promote your products to... you'll be able to beat every other internet marketer out there at their own game without having to resort to shady programs or having to compete to be noticed and ...

Spark An **Electrifying Surge** In Your Cashflow!

Your website or product's profitability and success is directly dependent on how much traffic, targeted traffic, you get.

If you don't get any (or few) visitors then it's practically impossible to grow your business and see a profit.

But get 1,000, 5,000 or 10,000 (or more) visitors a day, week or month and you'll begin to see a "snowballing" effect that'll let you generate cashflow and begin to build the structure for the life you've always wanted.

Unfortunately, generating traffic is probably one of the BIGGEST frustrations most internet marketers have... it's sort of like a dog trying to chase his own tail, you go round and round and round but eventually end up in the same place you began, loopy from the dizzying whirl!

Few of the methods being thrown about online work, others are a complete *waste of time* and money.

But it doesn't have to be difficult, frustrating or confusing - the days of yanking your hair out trying to figure out how to get the RIGHT PEOPLE to come to your website or see your products are over...

Announcing...

How I Did It And **More Importantly**, How You Can Do It Too!

It's really not that **difficult**.

I did it using my [search engine optimization software](#). (Boy is that a surprise...)

It's **not rocket science**. All I did was use my [SEO software](#) to propel myself to the top of the various search engines, and as a result I got more traffic from the search engines. That's it!

"Wait a minute Brad. I think I'm starting to get it..."

You Mean You **Actually** Used Search Engine Optimization?

Yup, that's right... I use this [search engine ranking software](#) on ALL of my websites.

And while you're thinking "WOAH, I already have difficulty turning on my computer...", there really is no need for you to be intimidated by these 3 words.

Let me explain...

Search Engine Optimization, is **sorely misunderstood** for the most part by Internet Marketers.

They think this is stuff for 'geeks only', but in reality, you should really LOVE these 3 words.

You see, a **properly optimized website**, is like a **magnet** to search engines and **attracts website visitors** the same way moths are attracted to a light bulb on a dark night, and this sort of traffic that you get from the Search Engines is called "**Organic Search Engine Traffic**".

Organic Search Engine Traffic is simply put, "*Type-In Traffic*". People arrive at your website because they typed in a keyword or a phrase that is relevant to your website, and because your site had proper optimization, your site shows up in the first few positions of the search results and gets the click-thru from the searcher.

4 Good Reasons Why Attracting Organic Search Engine Traffic Makes Increasing Sales As Easy As Shooting Fish In A Barrel!

Organic Search Engine Traffic Is...

- **100% Free!** (You don't have to pay for traffic)
- **100% targeted!** (What could be more targeted than a person who actually SEARCHED for what you're offering?)
- **100% Auto-pilot!** (You don't have to send any emails or place any ads. Your visitors will come round the clock regardless of where you are or what you're doing)
- **100% Hassle Free!** (You don't have deal with SPAM issues like having your website being blacklisted just because of some fruitcake who forgot that he opted in...)

Try finding any other sort of ' free traffic' that meets this criteria?

So why wouldn't you want to optimize your website for the search engines?

Obviously...

More Targeted Visitors = More Sales!

And if you're dead serious about increasing your sales and profits AND your time off, you cannot afford not to have my [SEO software](#), simply because you do NOT have to go through the steep learning curve of learning Search Engine Optimization.

All you have to do is follow the easy instructions, "*do this, then do that*" and it'll **do** virtually **all the SEO work** for you!

It really shouldn't be this easy, but it is!

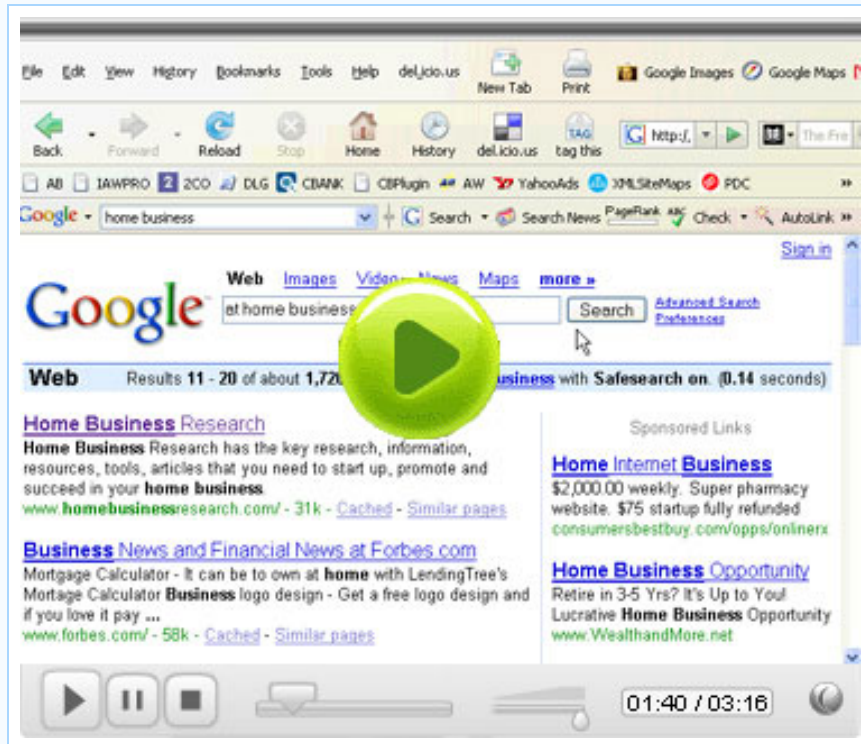

"I have first page Google rankings for keywords with over 2 BILLION competitors!"

"I have been using SEO Elite for some time now and I find it to be an indispensable tool. I use it almost daily to ensure that my sites are fully optimized within there respective categories."

11 Supercharged Wallet Fattening Features!

Let's take a **quick look** at some more of SEO Elite's **power-packed** features.

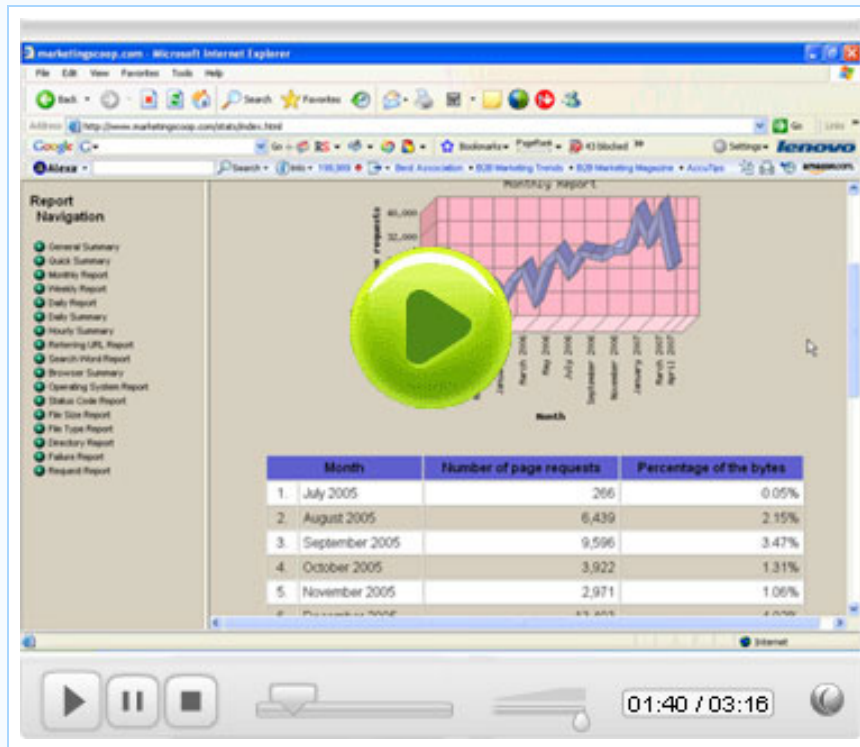

- Discover how any page ranks at the top of the Search Engines.** And that goes for the major search engines like Yahoo, Google, MSN, Altavista and Alltheweb. Finally, the keys to command *top-10 listings* are yours in mere seconds with SEO Elite™ 4.0!
- Instantly finds hundreds of high page rank websites in your field.** That way, you know who among your competitors are doing well. By the way, this is one of the most powerful features of the [SEO software](#), because there are entire tools created to do **only this single feature!**
- Searches for Super Affiliates willing to promote your products.** By learning who's promoting who, you access star-affiliates promoting your competitors (or related products and services), and can capture a piece of the action! Again, entire tools — **some costing upwards of \$97!** — exist for this single feature. But it's all included in SEO Elite™ 4.0.
- Shows immediately which partners are still linking back to you.** This feature alone slashes your workload time in half or more! No need to manually follow-up with each and every linking partner.
- Allows you to do a backlink search on all major search engines.** This includes Google, Yahoo, Alltheweb, Altavista, MSN.
- Learns how many and which pages each major search engine has indexed.** This is very important when optimizing your webpages. It's good to keep a close eye on how long it takes for your pages to get indexed. And SEO Elite™ 4.0 instantly tells you how many pages there are. **Again, there are entire products that do ONLY this feature and charge over 100 bucks!**
- Notifies and keeps a daily, weekly, and monthly change record of where your website is ranked for ANY search term.** Plus, it does so on all of the major search engines, including Google, Yahoo, Alltheweb, MSN and Altavista. (Pretty fast, too!) So you monitor your ranking, and know when it's high or if *it ever slips* for whatever reason!
- Analyzes and compares special search commands on Google** to the "regular" Google search rankings— such as "allinanchor, allintext, and allintitle". This will help you know which area you need to better optimize; whether it is your anchor text surrounding your links, the number of times the keyword is found in your text, or the number of times your keyword is found in the title of each webpage.
- Finds exactly which websites your competitors are advertising on.** This is a great way to find websites to advertise your product. If your competitor has advertised on a specific website for months, the you know it's profitable — and now you can *steal their spot!*
- Allows you to eliminate any penalized websites you link to.** In other words, by knowing which link partners have been penalized by Google, you can quickly take corrective action before it gets to you! This is a great feature that ensures you **NEVER** get penalized, too.
- Plus much more!**

Look at it this way. The search engine optimization software pays for itself in no time. It does so in both time saved and money made from using it.

Warning: Do NOT Buy Any Traffic Generating Solution Unless It Meets The Following 6 Criteria!

There is a lot of confusion surrounding our field. I want to give you 6 criteria or elements you absolutely, positively must have in any solution you obtain:

One: It must be hands free. We Internet Marketers have more important things in life to do, like going to the gym and fishing. :-)

Two: You MUST be able to profit in the process.

Three: It must comply with "Don't Make Me Think". We have more than enough things in life to think about than to scratch our heads over a poorly written manual that is stuffed with jargon, grammatical errors and fluff.

Four: It should be a one time investment.

Five: It must be able to pay for itself. Preferably within a few hours of purchase.

Six: It must work.

What It Could **Cost You** If You Don't Get **SEO Elite!**

You've seen **how easy** SEO Elite™ 4.0 works. You've seen firsthand results of how it made three of my websites a success. And you've just seen a ton of testimonials from recognized SEO experts and clients.

By now, you're probably wondering how much your investment in it is.

Well, think about this.

Let's say each hour you spend optimizing your website is worth \$25. (And that doesn't take into account the money you could make if you spent it on other, more productive marketing activities.)

OK, let's also say you spend at least — and that's bare minimum! — 3 hours every 2 weeks optimizing your website.

That comes out to \$150 a month of your time (that's up to \$1,950 a year) just for optimizing your own website.

Now think about the amount of money you would spend hiring a professional search engine optimizer to get your website to the top of the search engines.

FACT: Most SEOs charge upwards of \$4,500 a month!

So, in one month's time you'll spend over \$4,650 managing a linking campaign and optimizing your website. That's over \$55,000 a year!

Now *consider* this...

Because SEO Elite is, hands down, the most powerful search engine optimization product on the market, it would be completely feasible to charge over \$700 for this powerful product. Compare \$700 to the \$55,000 per year you would have to fork over to a professional search engine optimizer... At \$700, that would be a complete steal.

But, I'm going to do even better than that because I want to make SEO Elite affordable for the average webmaster. SEO Elite™ 4.0 AND all software upgrades are yours forever for a 1 time payment of \$167.

I would sell it cheaper, but I refuse to sell SEO Elite for any less, simply because it's **THAT** much better than any other product on the market.

Remember, you get what you pay for.

In the case of SEO Elite, you are **guaranteed** to get more than 10,000 times what you pay for.

If you're not serious about **getting top search engine rankings** then SEO Elite is not for you. \$167 truly is a steal, as SEO Elite really does pay for itself.

That's why SEO experts, webmasters and astute Internet marketers are buying this search engine ranking software like crazy.

In fact, since word is getting out about SEO Elite™ 4.0, let me warn you, you don't want a competitor using it against you.

Because they can use SEO Elite™ 4.0 to neutralize your linking structure by quickly coming up with one that's always better than yours.

Thus you always stay behind their website.

Listen, you don't want that to happen to you.

That's why now's the perfect time to download SEO Elite™ 4.0. Once your acceptance is processed, you can immediately access and [download your copy of SEO Elite™ 4.0](#).

"I managed to elevate this client's website rankings from total obscurity to #1!"

"Brad, I am more than happy with Seo Elite. In fact, 'ecstatic' would be a better description! Now, just for the record, I am a web designer and seo consultant myself, so I have high standards and demands when it comes to seo tools.

Late last year, I began using Seo Elite (in conjunction with Keyword Elite) to assist with the optimization of a client's web site in the property inspection niche. I managed to elevate this client's web site rankings from 'total obscurity' to #1 on Yahoo for no less than 10 separate

keywords and key phrases; #2 in Yahoo for 2 key phrases; #3 in Yahoo for 1 key phrase; #4 in Yahoo for 3 key phrases; plus a 4th, 5th and 6th place ranking. Altavista rankings were as follows: #2 for two key phrases.

AllTheWeb: #1 for 12 key phrases; #2 for 1 key phrase; #3 for two key phrases; #4 for 3 key phrases; plus a #5 and #6 ranking. Google rankings, have seen the keyword phrase 'building problems' rank #2 out 225,000,000 for over two months for this site between November 2006 and January 2007. There are too many more top rankings to mention here, but hopefully this will give you some idea of "just how world class SEO Elite really is!!!"

"I am now ranked #1 in Google for the term, only bracelets!"

"I Purchased SEO Elite around 1 and a half 2 Months Ago And Have Seen Immediate Results! Until now I was doing things blindly, but now the situation have changed and I can say that they were right when they say in video presentation that they should keep it for themselves. This tool gives you an incredible advantage against my competition.

Thanks to SEO Elite I am now ranked #1 in Google for the term "only bracelets" in less than a month with my site. I couldn't believe it, but Google dosent lie. Now I have more confidence that I will succeed also with my future projects. SEO Elite also saves me lots of hours of research, giving me the exact results I need, for which I was wasting hours and days in the past. Now I have more time to spend with my family and friends. Everybody knows that "Time is Money". And again they was right when they say that is worth multiple times the price."

"SEO Elite has enabled me to rank in the top 5 of Google, top 3 of Yahoo, & top 2 of MSN!"

"SEO Elite has enabled me to rank in the top 5 of Google, top 3 of Yahoo and top 2 of MSN for the search terms "car rental perth". I now receive 70 to 100 unique visitors to my site each day, all free traffic from search engines.

My competitors spend a fortune on Adwords to try and get the same results, but with SEO Elite I can save 100's of dollars per month. The analysis tools allow me to stay a jump ahead of my competition. And unlike a lot of other software you buy, SEO Elite is regularly updated and enhanced to cater for any search engine changes. The regular emails I receive from Brad also provide great tips and strategies to keep my website ranking well."

"... websites running that are in totally different markets and they are now both ranking in the top of Google thanks to SEO Elite!"

"Hey Brad, I've got a couple websites running that are in totally different markets and they are now both ranking in the top 10 on google thanks to SEO Elite (and keyword elite).

When I say ranking, I mean #1 on multiple keyword phrases for one of my sites, and I expect to see the same results on my other site once I get my link partner replies. This of course has spawned SOOO many more ideas and markets I want to tap into using your software. For anyone that is serious about taking their online business to the next level (beyond a mere hobby or side-project), you NEED to have these tools - it's just not an option.

I can't even begin to calculate the number of hours I have saved (not to mention brain damage) since using your software. Keep up the great work, and that reminds me, I have to call one of your great support guys as he offered to help me over the phone after a few emails back and forth about a question I had. cheers"
