Questions like: How many times per month do you shop for groceries?

I personally do this online. I know people who have the surveys mailed to them. But I myself can logon to the internet, sign in to my account and complete a survey within 5 minutes.

In that time I usually earn \$20 - \$45. Not bad. With a few of these a day:

I Manage To Earn Around \$3000 - \$4000 Every Month*

I quit from my old job at the postal office. Telling my boss to "Shove It" was the best feeling I've ever had.

Since then my life has changed dramatically. I love it.

In the morning I wake up my son Alex and daughter Jenny. Then as they get ready for school, I head downstairs, and turn on my laptop. Quickly I log into my account and complete a quick survey.

That usually takes no longer than 15 minutes. After that I refresh my account, and love to see \$25 - \$35 added to my account balance.

Then I'll make sure my kids have a good breakfast, before dropping them off at the local school. A usually stop for a chat with the other moms, before I stroll home again.

I then watch some day time TV while:

● **Taking a simple, easy online survey - \$5 to \$75 per survey!**

Or

● **Participating in an online focus group - \$50 to \$150 per hour!**

Or

● **Trying out new products, everything from shoes to stereos - Keeping the products and getting paid!**

Or

● **Previewing Movie Trailers Online - Then answer a yes/no questionnaire (did I like it) for \$12 to \$35**

To do any of these I:

1. Login and see what's available
2. **Find something which pays a good amount, i.e above \$20**
3. Select one I like the look of, and click "add to list"
4. **Complete this survey, or preview the trailer etc then make sure the amount is added to my account balance.**

That's it, if I want I can do it again, and earn even more. I am never worried about not having enough surveys to do because there are hundreds of new surveys added daily. I could never complete all of them. And the supply of surveys will never dry up.

The demand for market research is far too strong. A few years ago these companies needing customer's opinions would hold market research days. At these events hundreds would turn up to test new products and complete surveys.

It cost the companies millions to stage these events, as paying for people to physically travel to these venues was not cheap. With the rise of the internet however, these companies can create online surveys.

These surveys cost nothing to send out, and nothing for the customer to complete. Therefore the companies can afford to pay much more. By paying \$25 - \$45* these companies are actually saving money compared to what they used to pay.

Of course now everyone I know completes online surveys for quick cash! My mom is retired and does just one or two surveys a day. My brother in law is just out of college and has a great job... but completes surveys at weekends for extra

cash that pays for his holidays.

My best friend just had a baby and when I told her what I was doing and how much I was making she tried it out before going back to work. She is so happy she did .. now she stays home with her daughter and makes great money .. and she spends wonderful quality time with her child. This is such a great job I know you will just love it.

How Much Money Can I Make With This?

Use this sample calculator below and get an estimate your potential income*:

- ⋈ How many surveys will you do a day?
- ⋈ Average money earned for each Survey?
- ⋈ How many days a week are you going to fill out Surveys ?
- ⋈ How many Focus Groups will you do a day?
- ⋈ Average pay per Focus Group?
- ⋈ How many days a week are you going to participate in Focus Groups ?

Weekly Income: \$1,125.00

Monthly Income: \$4,500.00

Yearly Income: \$58,500.00

I setup this site after noticing what a great difference filling out online surveys made to my family's lives. They're all now financially free. My mother goes on vacations like me and can keep up with the payments on her house and flashy car.

I have created a members area on this site which contains everything you need to start completing surveys.

There are hundreds of companies who need surveys completed.

Although thousands of people currently complete surveys, there is never a shortage of work. In truth thousands more are needed to keep up with demand..

That's where you step in.

**. But Before You Get Excited,
Paid Surveys Not For Everyone:**

In fact, I can't even allow most people to sign up. Why? Because the companies only want people who will actually complete at least one survey per week, spaces must be limited only to those who are serious!

If you're the kind of person who will waste my time by receiving your log in details then floating off for your next venture.
FORGET IT.

Whereas if you think you can be dedicated enough to work the hour or two a day to complete surveys: I want to hear from you:
