Dear Friend,

Let me share a personal story with you. Back in the late 90s, I held an excellent position at a large IT company with a nice monthly salary. Somehow, the company ran into financial problems and was forced to lay off over 50% of its staff. Unfortunately for me, I was included. So there I was stranded, alone, unemployed, with all the bills to pay and a family to support. Where I lived, such jobs weren't easy to come by.

So I decided to do a little research. I spent many sleepless nights on the web just searching for something to do, anything that could help support me and my family. I just wanted a way to make money, and not lose it, as I soon found to be the case with numerous internet scams.

Just like you, I often stumbled upon all types of web sites offering me some money matrix scheme, promising me all the money in the world. Yeah, right! From stuffing envelopes, Multi Level Marketing, High Yield Investment Programs, to selling all types of useless products. You name it, I've been there, done that. Finally, I came across something that worked...

COMPANIES NEED YOU!

Online advertising has skyrocketed over the past few years. In 2008, companies spent close to \$50 billion advertising online. That figure is expected to increase substantially in 2009. What does this mean for you? Money is going into your bank account a lot faster this year. And next year. And the year after. That's IF you follow my methods.

You see, companies worldwide are desperately searching for people just like you to type up their ads and post them online, and they'll pay you nicely in return. It's a win-win situation. They get more customers, you get paid. It's as simple as that. These companies have cash, LOTS of it, and they're eager to share it with you. It's time for you to get a piece of the pie.

All you need to get started is a computer with internet access. What you'll be doing is posting short text ads for companies and submitting them in various online forms. That's it! No prior skills

or experience needed on your part. You don't need any degree in marketing to do this. Heck, you didn't even have to finish high school!

We're going to teach you EXACTLY how to do everything with our Step-by-Step Video guides and Image tutorials. That way, you can learn at your own pace. All types of individuals around the world use this system to

make more money than they ever could working in a boring, dead-end day job. So, why wouldn't you? You can work part-time or full-time, it's all up to you. There will be no one to give you orders anymore! You have now become your own boss.

You know it and I know it; 99% of money making opportunities on the web are useless. Over a period of 10 years, I've tried them all and nothing comes close to this.

HOW DOES IT WORK?

This is like a freelance opportunity. You can submit the ads on your own schedule, day or night, and you do as many as you want with absolutely no restrictions. There will always be work for you to do no matter where you live.

This is a successful money-making system with unlimited potential. I'll show you all the steps to the exact system I use to make money by posting ads for companies online. It runs virtually on autopilot. Once your ads are submitted, they'll be making money for you over and over and over.

In other words, you don't have to be sitting in front of your computer all day just to earn your money. You can go play golf with your friends, or go to the shopping mall with your family. Like I said, it's totally up to you. That's the beauty of this system.

We'll provide you with large online networks of thousands of companies to work with, each sorted by category and profitability. The internet is huge, that's why there is never a shortage of these opportunities. Many people love to work with companies that relate to their interests.

You can either use the free methods or the paid methods to post your ads, both will earn you a great income. The difference is, with the paid methods, you can literally be **making money minutes after signing up**. If you decide to go the paid route, we'll set you up with over \$125 in free credit to start with (that's like getting your membership for free!) That way, you're guaranteed to earn some quick, easy cash without dipping into your pocket.

You just have to register with these companies and then you can get to work. Don't worry, signing up is free and easy. You earn money every time your ad generates a transaction, up to \$100 each! Just a couple of ads could earn you a few hundred dollars. After submitting a few ads, you could start seeing money show up in your online account.

The more ads you post, the more money you can earn. It's that simple!

I guarantee that you could earn back your membership fee multiple times over within just a day or two with no trouble at all.

There is absolutely NO COST to register with these

companies, you will never be rejected, members worldwide are accepted and you may begin immediately.

You'll be provided with everything you need to get started; including some sample info that you can just

copy and paste into the forms, along with our Complete Step-by-Step System.

AN OPPORTUNITY FOR ANYONE...

One night, back in January of last year, I went out to dinner with my good friend Janet. We were just about ready to head home and so the waiter handed us our tab. Janet took a look at it and I noticed her eyes open wide.

Without inquiring as to what was wrong, I simply told her I've got it covered. She seemed to let out a sigh of relief and soon followed with the question, "Seriously Ross, what do you do for a living? It seems like you're always able to afford anything you want!"

Now, Janet didn't have the best of jobs, and she always seemed to be living from paycheck to paycheck (same as you?), so I thought to myself, it's about time I helped her out.

After giving her the gist of how I make good money working from my own bedroom, we returned to her house and she hurriedly got connected to the internet. I sat down with her and walked her through, step by step, the exact process I use to enter my ads. I showed her how to register her accounts and even what she had to enter into the forms.

The whole process took about 20 minutes.

"That's it?" she asked surprised. "Yep, now just be sure to check back tomorrow morning and you should already see some extra cash." I responded confidently.

She was obviously bursting with excitement and thanked me profoundly for my help.

The next morning I woke up to the ringing of my phone. It was Janet on the other end, her voice rushed with elation. "Ross, I did it!" she exclaimed. Still only half awake, I asked her, "Did what?"

"My account, it has money in it, \$56.40 to be exact." This obviously caught my attention. "Really, you made that while you were sleeping?" I anxiously responded. "Yes! That's just from what we set up last night!"

Janet was delighted. Our conversation ended shortly after that, as she was eager to get back to submitting more ads. I myself, was quite content with her progress and with the fact that I had just given her an opportunity to live a better life.

HOW YOUR LIFE WILL CHANGE

Here's what my life is like now I'm working from home. I get up out of bed, walk over to my computer and login to check to see how much money I made while I was sleeping. I prepare myself a nice cup of coffee, catch up on the news then go for a nice morning walk... and that's during the week!

Notice that I haven't said anything about waking up to the ringing of an alarm clock and rushing to get into the stressful morning commute just to go work at some dead end job.

That's the beauty of working at home! **Absolutely no commuter traffic, no stressful boss and I am in control of my time.** Not someone else! No longer do I waste my time in rush hour traffic. That's because I choose how and where I spend my days. If I like, I can spend 30 minutes on the computer or longer, it's totally up to me.

I now have the time to do things on my own schedule, not someone else's. You too can do the very same thing working in the comfort of your own home!
