## Yeast Infection Symptoms Change

**Strange Yeast infection symptoms occur.** They vary from person to person. And with one person the symptoms can change from day to day. These symptoms may vary based on the person's general health or genetic makeup. This is the one of the reasons that there are so many different symptoms.

**75% of the population**, it has been estimated, suffer from some sort of yeast infection at some time in their life.

**To treat yeast infection you have to treat what caused the infection** in the first place. The root cause. Everyone knows what a flare up of vaginal yeast infection or diaper rash is. You get some medicine and it clears up, right?

**But did you REALLY cure the infection** or did you just treat the symptoms?

## Chronic Yeast Infection

**You treated the symptoms** in most cases and the yeast infection is still there. Unless you treated the root cause of the yeast infection you have not solved the problem.

**IT'S STILL THERE???**

**YES IT IS!!!**

There will still be a low level of the yeast cells present... just waiting until conditions are right for another Flare-up.

Most people don't know what a **chronic yeast infection** is or the **damage it can do**. Many people become so accustomed to their symptoms they think their symptoms are simply just part of growing older or part of their lives.

## The Good News (finally!)

**It is a simple fact** that yeast, thrush, and Candida can be cured permanently. Once and for all completely eliminated. You can treat the root cause of yeast infection. And you can do this easily and safely in the privacy of your home. Even if your doctor may have told you differently!

## Hard to believe, isn't it?

**Since natural cures can not be patented** by drug companies. These natural cures are not profitable for them. They do not spend money researching them and do not promote them. Drug companies are required by law to make a profit, and are not required by law to make drugs that help people. **This shocking fact is not common knowledge.**

## The Big, Fat Lie

**Think about it for a minute and decide your self.....** Western medicine, Television, our doctors, magazines....every where we look....conditions us to believe that repeated doses of this drug or that antibiotic or this medication can cure all our ills.

"You will feel better as long as you **keep taking the drug**". The drug companies want you to keep using their products. Over and over again. Do you really think they want to CURE YOU ....Or keep you coming back for more?

**Many of the treatments they offer are Band-Aids**, masking symptoms, while the real problem is never addressed. Think VIOXX to treat arthritis. Premarin to treat menopausal symptoms. Insulin might be wonderful....but it treats high blood sugar not the underlying cause of diabetes!!!!

Did you Know there is something called "The Edmonton Protocol" that transplants Islet cells in the liver. It has been sucessfull in curing diabetes. There has been **NO DRUG COMPANY FUNDING**.

## It is CRAZY!!!

Drugs, Drugs....DRUGS, they simply do not **treat the root cause** of the yeast infection. They mask the symptoms for a while. The yeast becomes **Drug Resistant to the treatment** and the infection comes back even worse than before, more pain, more suffering and more drugs.

...Well having thought about it for a minute.. What do you think?

1.....This is a good and rational plan for my health.

2.....THIS IS CRAZY!

## The Simple Truth

**Yeast infections of all kinds**, have plagued humans throughout history. Long before the drug companies came along, people had yeast infections and had been treating them. Some how in the past people have been cured. That's what I set out to discover.

### How did people treat yeast infections before Drug Companies?

I set out to discover a simple, safe but very effective, treatment for yeast infection that is All-Natural. Not only did I want to treat the yeast infection. **I wanted to eliminate the root cause.**

Of course I didn't know if it was possible to discover this. But I set to work anyway and I can truthfully report I have **"REDISCOVERED"** those **SECRETS.**

I can promise you that you can have complete relief from your yeast infection in a few hours. For just few pennies and using no Drugs In an All-Natural way.

## The Rest of My Story

Dear Friend

As I said earlier I was a former yeast infection sufferer. I want to tell you a truthful, if not **slightly embarrassing, story.** I was plagued with yeast infections for years. Occasional flare ups, trips to the doctor, prescription medications, hours of misery.

I would get **burning, itching, vaginal discharge**, painful urination and pain during sexual intercourse. Sound familiar?

**My recurring yeast infection** came back with a torturous vengeance. That was about three years ago. I was in extreme discomfort and visited my doctor. She confirmed what I already knew, but she told me this time it was different.

**"This Is a Serious Yeast Infection" my doctor said.** The serious form of

yeast infection occurs when the yeast actually turns into a mold form and sends out tentacles called hyphae, or roots, into the skin. Not only is it difficult to treat.

**My doctor said "It was Impossible to Cure"**. Further, she said that all the previous treatments we'd tried, merely controlled the symptoms, the infamous Band-Aid therapy. Now it was a serious, very serious, situation.

**Frustrated and with limited options.** I turned to my husband Robert, who is also a medical researcher, for help. Together we explored every known treatment for yeast infection.

- Robert and I spent **thousands of dollars** and **purchased every internet remedy** we could find.
- We collected **hundreds of medical documents** about yeast infections.
- We spoke to **infectious disease experts**, researched yeast infections, Candida, thrush, and mysterious rashes.
- I **"lived"** in the medical library.

Finally we made a Discovery after almost a year of searching.

**We found a remarkable, safe, effective, All-Natural cure for yeast infection.**

## What are the SECRETS we DISCOVERED?

One point I have already made, but it is worth repeating;

1....There are a **FEW All Natural Treatments** that are safe and effective that **WORK**.

2....And there are **HUNDREDS of Shocking, Dangerous** and expensive and dangerous drugs and internet remedies.

The Results Were So Incredible

We Decided to Help Others

**All my symptoms vanished with in hours.** The results were so startling and the cure so rapid I was amazed. This revolutionary treatment has changed my life forever. It cured my symptoms and it corrected the cause of my infections.

**It cured the underlying root cause of my yeast infections.** The secret cycle of infections that had plagued me.....AT LAST WAS GONE. I was infection free.

**I felt great....**I slept better.....I had more energy...and I lost weight. I was not always hungry or having food cravings. I was more active and felt healthier. In fact a whole lot of funny symptoms I could never put my finger on, completely vanished.

**Now years later I still feel a new sense of well being.** I also feel and look a lot younger (according to Robert...he is a sweetie).

### Some of the Secrets we Discovered

**You know what?** It's not just women that can be plagued with yeast infections, anyone can get them. Men, women, children, babies, the elderly. A yeast infection can be chronic and hidden with strange or unusual symptoms that occur from time to time.

**You know what else?** Symptoms can change over time. An ache here today a pain there tomorrow. A headache today stomach pain tomorrow. Nothing you can really put your finger on. Most people think it is just getting older and accept the symptoms.

**This is a Shocker!!!** There is no single medical test for chronic yeast infection. Ask your doctor. That means a clear diagnosis by a doctor or a lab is often impossible. Nearly any part of the body can be affected both externally, and internally.

**Why are the Symptoms of Yeast Infection so varied?** Well, for one person it may be vaginal irritation, painful urination, an under arm rash or oral thrush. For some one else it could be the cause of weight gain, depression, insomnia, lack of energy, early aging. Every one is different.

### The Danger of Chronic Yeast Infection

**CHRONIC YEAST INFECTIONS**

**CAUSE GREAT HARM TO THE HUMAN BODY.**

**Treat the root cause of the yeast infection. It does not matter if it is vaginal, oral or a skin rash. Treating the symptoms of a flare up leaves the symptoms treated..... and the yeast remaining. Ready to flare up again and again. And between flare ups the yeast can cause great harm to your health.**

## Ask Yourself Honestly

Do you **WANT RELIEF FROM** burning, itching, painful urination or vaginal discharge?

Do you **WANT RELIEF FROM** an infection and want your good health back again?

Do you **WANT RELIEF FROM** a chronic infection and the lack of energy it causes?

Do you **WANT RELIEF FROM** problems with your appetite from chronic yeast infection?

Do you **WANT RELIEF FROM** rashes and skin problems?

Do you **WANT RELIEF FROM** unusual symptoms that you can't explain?

Do you **WANT RELIEF FROM** "Just not feeling like yourself"?

Do you know what?

You really can eliminate all of these problems!

IT WORKED FOR THESE PEOPLE

AND IT WILL WORK FOR YOU

Hi there, First of all, let me say that your advice has been amazing.

After nearly three full years of continuous thrush I am now utterly symptom free!

Incredible!

Lisa.

Hello Sarah.....

This is way overdue.

Last December, after months of taking over the counter yeast infection treatments (at my doctor's orders), my crotch was raw and severely "burned", resulting in some pretty intense symptoms.

I tried everything the drug store had to offer (which gave me 24 hours of diarrhea), and finally I persuaded my doctor to prescribe Diflucan. . . but nothing seemed to make a difference for more than a few days.

I was walking like a duck from the irritation...

I needed a cure!

One Sunday afternoon I found your website. I read the testimonials, and almost paid the fee . . . but I was afraid it was some kind of rip-off deal and changed my mind.

Later, feeling miserable with the burning and itching, I decided to take the chance and bought the e-book.

I read it immediately as soon as I'd downloaded it and it seemed so simple but it made so much sense.

I immediately began following your instructions and

I felt better within a few hours!

In a few days I was so much better I could not believe it.

Well, that was a number of months ago now not only am I

yeast infection free. I feel like a whole new person!

I have renewed energy and just feel 10 years younger.

I followed your advice and I am amazed. I am back to normal. I'm so glad I took the plunge and purchased your information.

You have saved me many times the purchase price of your e-book.

I feel way better than those drugs ever made me feel. As I said, I'm back to normal, feeling the way I did 10 years ago.

Just wanted to say a heartfelt "Thanks!"

Sincerely

Elaine Godfree

Dear Sarah:

Thank you so much for the information in your book.

My baby and I had recurring yeast infections and now we have no sign of them!!

My family is also eating healthier and losing weight in the process! We are so happy to have done this the natural way.

After two bottles of Nystatin as well as topical creme, my poor baby still was having recurring infections! We were so frustrated.

But now, we have relief and my family feels better!

Thank you so much!!

Sincerely, Annie U.

Hello Sarah,

Thank you for giving me my life back.

I thought I had tried every cure for recurring yeast infections. After reading your ebook and following your treatment, I'm cured!

It's a miracle!

I had been suffering for years and had spent hundreds of dollars on creams and medications - none of which worked.

I can't believe the cure is so simple!

Everyone with yeast infections should try this.

Kendra Parsons Canberra, NSW

Hello Robert,

I am kind of embarrassed to be writing to you, but I thought people should know.

I am a man that has been plagued by yeast infections in the most embarrassing locations.

Doctors haven't helped cure me at all!

I just want other men to know that your cure will work for them also and they can avoid the embarrassment.

It's so simple, fast and easy!

You've really found the cure and it doesn't rely on drugs, that only mask the symptoms.

Thank you so much.

Bruce R. San Francisco, CA.

THANK YOU THANK YOU THANK YOU...

BLESSING TO YOU AND YOUR WORK..

What I did is take some before and after pictures the treatment so you can use our testimonial for your website.

Again Thank You

Peace and Blessings

Tina

Sarah thanks so much.

I was surprised to see alot of remedies I am already aware of.

But the COMBINATIONS are what intrigue me.

I was extremely excited to get the information about the ----- . I have tried a few things.

And am glad I invested in your book.

Odessa

Dear Ms Summer

I want to thank you very much for your book and your advice.

What Doctors had told me was basically a lie that I have a yeast infection and it would be cured by the drugs they gave me. Lies lies lies !!!!

I followed your advice and I'm free of my yeast infection.

I want to thank you very much for listening to me and helping with your book and your advice was the solution to my chronic yeast infection.

Thank you Very Much

God Bless You!!!

Thank You!!!!!!!

Sarah & Robert,

I apologize for this long letter but my "story" is long. Robert, forgive me for sharing such personal details but I want to thank you too for helping Sarah to help me!

My entire groin area was covered with itching, burning sores. I was in tears when my gynecologist said, 'Not a problem; just a yeast infection' and prescribed a topical cream. (I had no other symptoms.)

Two days later, my medical doctor said the 13 sores on my legs were bug bites. Then when I lifted my shirt to show him the one under my breast, he exclaimed, 'Ring worm! What have you been taking? Your immune system has been compromised.

I told him I had not been taking anything! He prescribed a topical cream but said nothing about my immune system!

When we think back over the past 2 years, my husband and I had both suffered from food poisoning. After a lengthy illness, a colonoscopy showed intestinal inflammation in my husband. I think Candida had started its long, slow process of destroying my immune system.

Months later, the leg and breast spots started to fade. During the next year, I purchased tube after tube of yeast infection topicals from the drug store and internet (Mesosilver Antifungal).

Also, I was educating myself; literally, reading hundreds of pages from dozens and dozens of websites. I started natural supplements, Chlorella and acidophilus, to boost my immune system.

In the meantime, after years of little discomfort, my hemorrhoids and 44 year old episiotomy were unbelievably painful. I was using everything I could think of including

vinegar, wipes, hydrogen peroxide and hydrocortisones.

I was raw!

Nothing helped!

But against my husband's request, I saw no point in going back to the doctor. When I came across your website, I was reluctant to spend another dollar. I didn't trust anything or anyone! But I was also desperate!

I bought your e-book.

Oh, how I wish I had found you sooner!

We bought ----- from Walgreen's. Then we bought Vitamin Shoppe's ----- (Both were relatively cheap!)

Truthfully, after a years of torture, your treatment was a blessing.

Thank you so very much.

May God bless you both.

Forever grateful,

Carol Green

Hi Sarah,

I felt I must write to thank you for giving me relief of my yeast infections for the first time since I can remember.

Your cure is natural, convenient, inexpensive, and most importantly it works!

The publication was everything you told me it would be, and more.

My husband also sends his thanks, and wishes I had found you sooner.
