I should know ... as the day I STOPPED listening to *everyone* was the day I started cashing in ridiculous amounts of cash from products, services AND affiliate products.

Everyone is buzzing over Google Adwords Adwords Adwords ... 'let the world see your website in 15 minutes!' But let me tell you something ... it takes 15 minutes AFTER you have done all the **legwork** which takes several hours before your ads go live!

Dear Friend,

Whether you're a newbie, affiliate or business owner working online, full time or part time or about to begin your journey to making money online then you need to stop whatever you're doing and **listen**

carefully. Because today I'm going to expose every bag of tricks that has been hidden away in every super affiliate and gurus vault, which will allow you to finally break your own bank balance like it's doing for them.

Step-by-step BLUEPRINTS, for BOTH the affiliates and business owners, whether you're making or promoting a **1 page website or even 1,000 page website**. If you've gambled your money on Adwords, pampered your pages with the latest SEO techniques or even 'attempted' making money online with products or services then you **MUST** read every single word on this page ... it's that important because you're being lied to repetitively over and over again...

The 'gurus' aren't your friends, you should know that by now, you're just **another** customer. They either lie about revealing 'the magic button' or quite frankly they just don't want to tell you!

However, I'm going to reveal secrets that will trigger a hole in the super affiliates and gurus money bag. Plus it's time to level with them using real insider secrets that they use constantly over and over again, whilst selling you other diluted methods and outdated crap!

"I actually thought it was damn near impossible to pull traffic off Google for free, or at least that it was dependant on understanding some incredibly complex SEO algorithm. Then, we met and you showed me how you were making a full-time living doing very little. And Google was happily funding your lifestyle...

The fact that you were making a full-time living didn't suprise me: what shocked me is the fact that you were doing almost no work, and you were making it work with a **very simple, easy-to-follow method**. It's easy to buy traffic from Google, but to get it for free - *and so easily?* A very rare thing indeed..

Of course, I challenged you to show me the sites, keywords and how you were doing it - and you lived up to your word. **You even went one better and put these exact sites and methods inside Google Snatch** - so that your readers can see what

impressed me so much back in February when we met...

These methods are very easy to follow - and a '**genuine**' alternative for people who want traffic from Google, but don't want to blow cash on Adwords.

Chris

DayJobKiller.com / AffiliateProjectX.com

That's right ... it's time to '**FREEZE**' your Google Adwords and any other Pay-Per-Click account, as you will NEVER spend a penny on getting traffic ever again after you've applied this!

Sure ... we all bought books, got slapped around, stepped on because we are the little people. But it doesn't need to be that way if **ONLY** you know how.

I am not a 'popular' well-known internet guy and thank god for that. But last year I attended several so called internet seminars to see what I could be missing out on. I didn't learn much besides informing my accountant to write the expense off as educational material. As at the end, you just don't have the heart to ask for a refund in front of hundreds of people high on cocaine.

Yes, I do live in the UK and I did go to some US events. To me, there wasn't much difference to being in the crowd of a Tony Robbins event. The lightning, the environment, the sales pitch, the speakers enthusiasm, the desire, the interaction and the feel good factor of like minded people 'finally' around you. It's like a hyped-up, gruelling on steroids motivational event.

"Get up and raise your hands!"

Wow ... raising my hands is going to make me money ... that sure helped ... I should do this more often as I'll be a millionaire in no time. So to me it was nothing more than taking a confidence booster pill which eventually lost its momentum!

I mean ... have you ever seen a marketing guru actually sit there at the event **in the audience and listen**? Hardly never!

So I got bored and started rubbing shoulders with some famous names on the internet in a secret location (the lobby), making small talk. 'So what do you do online?' Not knowing how to answer these types of questions so I responded without hesitation.

'I make 6 figures online with one of my websites!'

Next question... 'So how much do you spend on Adwords to get traffic?' 'You mean on Google Adwords? Nothing, nada, nil!' This is when heads turned and ears are bigger than an elephant. These gurus spend thousands of dollars every month to bring in new prospects and I spend **NOTHING!** **Now who wouldn't want to pick my brain?**

Pay per click is their number one killer as it's getting more and more expensive thanks to the *latest* Google Slap. They spend thousands of dollars every month to reap back their dollars and try extensively hard to expand the customer lifetime value as much as possible just to break even.

I should know as I've also been on the phone with several marketers and I can hear them writing and fumbling with paper. It was obvious what they were doing as one admitted making notes to what was coming out of my mouth.

'Slow down a little ... I don't want to miss anything!'

The fact is these internet gurus DO have thousands of dollars to spend on Adwords, without a doubt. They do million dollar launches and eventually everything turns politics. Right guys? I won't mention names... not several but **MOST** top internet marketers are all in it together. But that's the way it is.

A guru is promoting another guru, then another is promoting another guru. The emails you see in your inbox are from gurus selling each others products. Have you seen a recent launch with every guru promoting the heck out of it?

"If you're tired of wasting thousands of dollars a month on Adwords, and sick of seeing your Clickbank cheques near enough wiped out by your sky-rocketing Adwords bills then Google Snatch is for you.

Hundreds of smart affiliates all over the globe are securing free, and super-targeted traffic every single day and not only bringing home bigger Clickbank cheques, they have ZERO advertising costs. The margins are insane, and with this system, the results are scalable beyond the maximum impressions offered from regular Adwords ads, the sky is the limit.

If you ever wondered how the smart marketers make their money, and why all the top six and seven figure internet marketers now shun pay per click traffic in favour of the Google Snatch, then pick up this course today and prepare for a major shift in paradigms.

I highly recommend this package, you won't find any of this information anywhere else but here. **Google Snatch is the new standard for Affiliates wishing to bring home six figures and beyond.**"

Anyway back to spending... minimum bids on Pay-Per-Click aren't cheap no more... ***the bar has just been raised again***... what use to cost \$0.01 now costs \$0.75 A CLICK! So imagine people, I didn't say customers, who click on your ad at the rate of 300 every hour. That's a \$225 bill accumulated in ONE hour!

I know for sure you'll give up soon enough as the guy with more money outbids you and takes you off the page ONLY forcing you to come back and spend more per click. Crazy isn't it?

I've tried it all ... PPC, SEO, social bookmarking, blogs, articles, email promotions, Adsense, Clickbank, Commission Junction and many others which then allowed me to pick the winners. Anyway buying from all the top gurus made me realize ONE thing...

Don't open the email. PERIOD!!!

No matter how interesting the subject line is ... DON'T! Gurus can spend upto \$50,000 on a sales pitch whose ultimate JOB is to hypnotize you to buy more. The result of that sales message ... ? \$10,000,000 PLUS. That's right TEN MILLION dollars in a day!

Has a guru ever sent you something of '**real value**' without manipulating you to buy something? Can you *even* remember the last time you got anything juicy for free?

This is what triggered me off ... I had to STOP this nonsense! What could I possibly be doing wrong? I'm doing everything they are telling me yet still not making hundreds, just a few dollars. So it was time to take matters personally into my own hands. I took hold of my inventory and progressed from there. I mean I learnt a lot but at the same time learnt a hellava lot of B.S. too! I've read 100+ books, tested, tried and failed.

**The Methods Inside Those Books Always
Has The MOST Single, Essential And
Critical Ingredient Missing. The 'Missing'
Piece That Brings In The Money!**

I wanted to make money without spending an absurd amount on pay per click (Adwords). It still wasn't working ... as my competitors started clicking on my ads.

So I thought of Google and what it loved the most. I also realized that the other engines are kissing the floor Google walks on... so what did I discover? Nothing but ... **WORDS!!!**

Google + Content = \$\$\$\$\$

Google + More Content = More \$\$\$\$\$

And NO it's NOT content as you see it. **It's how that content is put together to make YOU real money!**

So I created a website and had a feeling in the back of my mind, a negative one as always, what if this doesn't work? What if I don't sell a single thing? But I wanted to make it on the internet and was just determined to carry on. So several days later I saw some light, I witnessed some *real* money enter my account, without using Adwords.

I knew I was onto something, so I went back to the beginning and started writing a blueprint for **myself**. A step by step plan of action, that no matter when I wanted to make some more money all I needed to do was look at the blueprint, apply it and cash in.

Heard of beginners luck??? Everyone gets it! So just to make sure it wasn't I tried another website. Did it work this time?

Course it DID!

So I created another, then another, then another, tweaking my blueprint every single step of the way and the BEST part ... I tried it in different markets, on different affiliate products, different services and it worked for **every single one!**

**The Rise Of Google Snatch...
The FREE Click Formula**

"Latif

When I met you earlier this year in New York as soon as I asked you what you did and you told me... *I became very interested...* You may remember me starting to ask some really **BIG** questions... but you didn't hesitate, **you were coming out with everything, techniques that I've NEVER heard of!**

You told me you were eventually going to put the information together one day and now that you finally did, **I'm in awe!**

The book **breaks down the truth about grabbing all the targeted FREE traffic** you need, as an affiliate or anything else for that matter. This is one of those books I seriously can't believe your not limiting, **it's going to help some people do some SERIOUS damage...**"

ERock
AffiliateRockStarStatus.com

In the process this is what I learnt ... we are only trying to make things complicated for ourselves. We THINK we need to be more intelligent than the average to be able to make money online. This is NOT true. We TAKE simple things and MAKE them complicated ourselves as simplicity is NOT the answer we are looking for because it seems too good to be true. **The fact is ... it is too good to be true!**

But there's a catch! A bummer actually for people who want to hear my daily spend. NIL!!!

I CLOSED MY ADWORDS ACCOUNT!

I wasn't spending a single dime on traffic and it was all FREE. My techniques were putting all 3, **white, gray and black hats ALL to shame!** The reason we fail is because we are missing critical elements of a code. You could claim once you download the book that I use white, gray and black hat, however what I can tell you is this ...

I HAVE NEVER BEEN THROWN OUT OF ANY SEARCH ENGINE, WHETHER IT'S GOOGLE, YAHOO OR MSN! I've never had a domain name ceased, never had any of my accounts suspended, never had my Paypal suspended, never had Clickbank freeze me, never had a problem with Commission Junction, never had duplicate content penalty, no Google Slap, no supplementary indexation and never have been placed in the Google mysterious Sandbox, or was there ever one???

Do I fool the search engines in anyway? Read the above AGAIN!

I'm sure you've heard ... fool the search engines and NEVER get caught! Are you insane??? Of course you'll get caught. The search engines are getting smarter and smarter day by day. What use to take them months to figure out, now takes them weeks, soon it will be days so you're being warned. I know because I've seeing it in action!

I've seen competitors fall flat on their face after dominating the engines for a couple of weeks with their methods. Whether they get de-indexed or simply thrown out, that's for Google to decide. I've seen pages eliminated on Google results, 46,500,000 dropping to 3,500,000 within a DAY!!! What happened to 43,000,000 of the search results?

What you will learn with my secrets is actually '**real**' **cutting edge**, the step by step free click formula and ultimately the non guru type information. Otherwise you can continue to literally still throw thousands of dollars on junk information over the years, trying to learn the next gimmick or continue using Adwords excessively making Google richer and richer.

So my question is ... wouldn't it make sense to see how the free click formula works and why it remained hidden in Googles vault since 1998?

I practically use the SAME content model in every market or niche, even on affiliate products and duplicate my success over and over again with astonishing results EVERY TIME!

This has got nothing to do with any white, gray or black hat techniques. This is the free click formula which I leverage excessively and in return brings me thousands of prospects with money to spend.

"Your book **Google Snatch** is smokin'!... Its like **Google Maps** - only for finding **REAL web traffic generation...**

You make everything clear and easy BUT then you back it up by showing how to do what 99% are leaving out. **Now anyone who puts this into action can go for the top 1 % of Google.**

In essence, your book **offers a great advantage for anyone who wants to pull back the curtain on getting their sites ranked high in Google** AND do it on a level like the big internet firms - ONLY without all the expense and hoopla."

Do you still think and dream that one day, *just* one day you'll be able to earn 6 or even 7 figure sums online?

Well stop dreaming ... here's why

YOU ONLY NEED TO UNDERSTAND WHAT YOU NEED TO DO & HOW TO APPLY IT CORRECTLY, BY FOLLOWING THE RIGHT STEPS. THAT'S ALL!

I'm not going to tell you to push a button and watch the money pour in. NO! This method requires 'some' work as everyone is doing something to make that money. It's not hard if you know how. There's one thing I can tell you for sure ... if you can turn the light bulb on in the room you are sitting in, then welcome to the world of 6 & 7 figures!

I mean millions of people just like you purchase book after book, vague guru information that gives you a measly sandwich out of the kitchen.

Well this I can tell you will change. No secrets are held back AND I use these techniques to this very day. I'll give you the kitchen, the fridge, the cooker, the sink and the cutlery to make the sandwich with.

I finally started making 6 figures and I'm ONLY spending an hour a month, every month per website. Another hour on another, so literally I am doing 'jack' all month, besides enjoying myself.

I can push my limits higher by putting in those extra hours, but seriously MY friends call me the laziest person on the planet. I sleep long hours, relax a lot and leave my village on many travels which practically has people gossiping all over town that I've got to be some kind of drug dealer!

The Drug Dealer...

I've enjoyed long vacations with me and my dog, I mean laptop, and the record I've held so far is 5 months. I have people in corporate jobs begging to join me. But I tell them I don't do anything, so there's nothing to join into to. Doing an hours work on each of my sites every month gives me 29.9 days to do other things that I actually enjoy.

So to be frank, I didn't want to reveal my secrets to the world as I was living 'the life'. But I was constantly being pestered, 'come on... people would love to get their hands on your knowledge'. People will pay you \$xxxxxx amount, but seriously it didn't bother me at all.

"Hi Latif...

Just a quick note to let you know about the strategies within Google Snatch.

As you know I was **getting fed up with Adwords** as it was killing me. I was mentally going insane because *each click was getting more and more expensive* with all the competition out there. You told me to do ONE thing... follow the blueprints within the book and CLOSE my Adwords account.

I thought it was a crazy idea as everything in the book **looked TOO simple!** However after I implemented, within 2 days the free traffic I got, I just can't explain.

Thanks for everything..."

Lillian Gomes

You can pass up on my secrets by mistake as for others it is in fact the only FREE click formula existing on the internet that works without money down. Getting free clicks to your website without the burden of spending absurds amount of cash. The free click formula is a skill, filling Googles pocket isn't!

You see, Google is getting more and more expensive and so is Yahoo and MSN. More people are becoming wary of being able to use pay per click to make a quick buck. You start a new website that needs traffic, where do most people rush? Straight to Adwords! They spend their hard earned cash and cut each others throat in the process. So the question is ... who's getting rich? You or Google?

In a way you are typically 'gambling' your money away on Adwords. Who's clicking on your ads? Your competitors, potential prospects or 'school kids'? The chances are since everyone is in the cutting throat business to reach top positions, everyones clicking. *Are you also clicking to see who your competitors are?*

So what are the chances they aren't?

I'll give you the opportunity to click on my ads where I use the free click formula on Google, Yahoo and MSN. I'll even show you **exactly** where my ads are and I dare you to click it at least once and **double dare** you to click it a THOUSAND times. Think I'm paying for those ads? Want the same formula?

Back to you ... do you want to succeed BIG time because this is YOUR chance?

Do you really want to make some serious money as an affiliate or even as a website owner?

Are you making the 5, 6 or even 7 figures online like the gurus are, as some really are making a KILLING!!!

Ever noticed a super affiliate brag about his SPENDING activity on Adwords or is it ALWAYS about the GROSS amount he makes? Take the total expense (PPC) away from the gross and what are you left with? Thousands in profit or just dollars???

You can if you wish, practically *reach* a high level paid executive position within weeks with thousands of dollars entering your account daily even whilst you sleep. It is possible. There isn't a better feeling than to wake up, log on and seeing virtually thousands of dollars coming into your bank account.

So does this mean I have a dirty affiliate trick to share? Nope ... there's plenty of gurus doing a good job of that already (chuckle). The methods I will be revealing are **so powerful** that some super affiliates were totally gobsmacked! I mean I got the dirty look for not using their Adwords techniques and for worse living off my free traffic formula. Spending thousands on Adwords for a living. What a DUMB profession!!!

The Day Job Challenge!!!

I met up with Day Job Killer author Chis. The guy who knows his stuff for affiliate marketing but with an expense. He pleaded with me and my time and challenged me to prove it works without spending a penny on Adwords and then to show him the results. I love challenges and just said 'fine, no problem'.

I recreated one of his sites, a recent one, and couple of days later we met up again and I showed him the results.

So how much did you spend? 'Ermmmm, NOTHING!!!'

I was using my content formula to get traffic to the site which he didn't believe, so I showed him my closed Adwords account. So in effect I literally blew his budget in seconds. I recently met up with him again and told him that yesterday I got another sale for his site. 'Nice!' he smiled.

Obviously it's nice because I was making myself money as an affiliate and was making him richer in the process too. So why wouldn't he be happy?

Truckload Of Customers From Free Clicks...

Everyone should have access to this knowledge and have the chance to compete against these big so called internet gurus. **Discover what the top earners don't want you to know and understand – which can practically make you millions the lazy way like it's doing for them.**

"Hey Latif...

...I've been an Internet Marketer for almost 2 years now, and I thought I knew everything there was to know about making money online. But, you're the only Internet Marketer that has managed to prove to me that it is indeed **possible to get FREE traffic from Google...without spending a single dime on Adwords...**

Yeah, sure many so-called experts and gurus claim to have the secrets to generating free "clicks" to make millions from their affiliate programs but you're **definitely the 'REAL'** deal in this department.

Since we first met in February, I've personally hung out with you for days sometimes, and **watched you make over \$10,000 in just a few days (right in front of my eyes)** using your methods of getting free traffic from Google...I've never ever witnessed anything so amazing in all my life, and I've seen a lot of people make money online in my time. *But nothing compares to your system for getting free Google traffic...*

... you know sometimes I really hate you because although we both make a lot of money online, I envy you: while I have to spend thousands of dollars on Adwords to make my money, **you spend...well, NOTHING!** In fact, you don't even have an Adwords account any more.

And even though overall, it might appear as if I might make more money than you, **I wouldn't mind changing places with you any day and making money from Google...and getting all my 'ad clicks' for free.**

Kenny Thompson Oboh
(author of 'Google Wealth Wizard')

Are you getting sick to the stomach of losing money like crazy on Adwords and nothing to show for it? Logging into your affiliate account for the 20th time in a day to see if you've made a sale? Or even tired of buying rehashed junk, outdated that just doesn't work no more?

I've been there too. And I still occasionally **do get sucked in ...** no lies!

Nothing was really working after constant failures? Are you like this as I know I was? Well listen carefully as I wasn't too sure of people being interested in this stuff as I don't really like telling people what I do or how I do it.

So this revolution has just begun and you should participate in snatching cash off Google, the real lazy man's way! Ok ok... I'll tell you now, you have to do some work, but it's WORTH IT!!!

I'm not even gonna say I snoop on people, learn their tricks then teach others and make a living out of it. NO! What I am saying is, I learn but have never taught people at all, EVER!!!

So this is new for anyone who hasn't heard about me! By the way, it's not about me, it's about my secret. Will it work for affiliate, business and website owners? My simple answer is ... it will work on ANYTHING online. Whether it's an affiliate product, your product, a service, whatever. I have applied it to all 3 and it works in the same manner as stacking your first set of lego bricks. Overcome the first stack and you're home free!

My secret works because it is a system which in one word is repetitive. The things I do for an affiliate

product, are the same things I do for a product or service. I mean it's totally crazy!

I can promote an affiliate product within hours, sit back and make ridiculous amounts of money for weeks and months to come, without spending a single red dime AND most importantly never work on it again!!

" Wow Latif, thanks for the Google Snatch!

It has revealed some **very unique and refreshing twist to getting free traffic from Google**. I must admit that I wasn't really sure if this could work but am totally surprised and convinced after reviewing through the Google Snatch that **this does work and it work very well indeed!**

In fact, it could potentially **change the way we do affiliate marketing!** I have been a PPC specialist and am **now seriously considering venturing into this territory.**

Thanks again! "

Make Sales From USA, UK, India, Europe, China & Even Australia... Cash In GLOBALLY. The Real Revolution!!!

... and don't forget to thank Google!

The internet is HUGE and more and more people are coming online to do business or make money. 99% of these people don't have the slightest clue. They work for months, get burnt and never return. Or they make a dollar here and there and survive off cereals, beans and toast. And it's SAD, as nobody is actually giving away any real secrets. Just a black hole to suck you in more and more until the day you die with nothing to leave for your kids!

The gurus and the BIG corporations are capturing the markets AND the niches as they have a bucket load of cash to spend. Nothing compared to what you have.

Just on **simple** tests, I've seen marketers blow, \$100,000 in a couple of hours!!! Yes, a couple of hours. Do you have that sort of money? I do, but I'm not that stupid! Why should I spend if I can GET people to buy for free???

Close To Success ... Yet Feeling Still Far Away?

It wasn't an easy run to get where I am today! It was a pain, the daily 18+ hours (remember those?), the thought of I'm nearly there (just one more day and I'll crack the code), the constant failures like Einstein but to invent the free click formula. The sun never shone above me and it was always raining. But I do remember every single one of those long hard days ... I look back and think, yes I DID go through that phase, but not anymore!

Now I compete with BIG Fortune 500 corporations who have advertising budgets of over \$10,000,000 PLUS and I will teach you the exact same. Online I can show you my exact secrets that I

deploy to beat such businesses, as at the end of the day I'm laughing to the bank because I didn't spend a dime to make any of that money.

I'm not going to boast and say it took 6 months because it didn't! I have been working constantly for the last 2/3 years perfecting the formula. It's just in the last 6-9 months I could see myself in the mirror as a human being again. I had even lost weight in the process working too much at cracking the Google content code!

Now let me ask you a question? Do you think it's possible to compete online with eBay or even Auto Trader? Well can you?

Latif...

I'm humbled (and downright stupified!) by Google Snatch.

I've always taught, and thought, that every source of Internet Traffic falls into one of three brackets:

Grown Traffic, Bought Traffic, and Borrowed Traffic.

You've proved with this simple, yet MASSIVELY powerful, method of traffic generation that its not quite so simple.

And thank Goodness for it!

This is another dimension of traffic gathering entirely. **One which has crept beneath the radar of every Internet Marketer I know.**

I'm really excited by it. It is sure to **revolutionize the way we market websites, and the way we all make money online.**

Never have I seen such an effective method of gathering swarms of fresh targeted visitors at zero cost.

Plain and simple: Its GENIUS!

To anyone visiting this website I say this: Don't leave in a hurry, and be sure to read every word of this page. Once in a decade does something of such importance appear. This information is worth more than gold. **The value to you of knowing Google Snatch is priceless.**

Every internet guru out there will tell you, DON'T go for the BIG markets, you'll get burnt. I say bollocks! It's all hype and you'll see why when you download my secret.

**Success NOW Is STARING In Your Face ...
The ONLY Problem Is, Can You See It?**

Working online has created phenomenal opportunities and I mean **PHENOMENAL!** I don't work hard at all and I get pestered all the time about my profession (the drug dealer) and people stare and complain ... 'why don't you get yourself a job?'

My ultimate response ... 'Do YOU like yours??'

I use to believe everyone that sent me their stuff, I was like 'wow'. I mean literally I was just WOWWING!!! Then I stopped listening and guess what happened? I started to make money. No more information overload, no more Adword BS, no more Adsense BS, no more I need to be on this bandwagon and no more jumping on the walls only to fall like Humpty!

When you read my secrets, I can personally guarantee you can GET into any market you please and this will have gurus put on their running shoes. I know they're reading my secrets and it will get them working harder as you enter the playing field. Because we, my friend, are going to take over their territory. It's not their turf no more. There will be no more politics, no more yada yada and the blah blah blahs. You will make money just like the gurus do using the free click formula of Google Snatch. PERIOD!

Plus I'm not going to lie to you, it won't take 'much' time. But I must warn you, if you can build a simple website (HTML), write a sentence or two, you are up and running within minutes, then sit back and watch the dollars roll in!

I hold blueprints – for AFFILIATE products and for BUSINESS/SERVICES as I've tried them BOTH! And some other bonus blueprints which you will discover once you download. Each will show you how it's DONE. The ins and outs, the left the rights, the above and below. It holds the true key to internet riches.

1) Mini Sites On Steroids - for the affiliates, who are ready to get in on the action straight away. Site setup, action plan and profiting within a couple of hours ... **with CTRs as high as 80%... without a single spend on Adwords!**

Getting hundreds and thousands of visitors to my site was in one word ... **EXPENSIVE!** I wanted to know how it can be done *without* spending a penny on advertising.

The mortgage market I'm in is absolutely fierce, you can imagine the competition especially the ones that have money to splash out.

I don't know what you've been reading or what kind of knowledge you have about making money on the internet. If you've read the [Day Job Killer](#), Chris literally changed the face of Adwords. People were all over the internet using his techniques, because they worked! But the only problem you had was ... money. You had to spend it to make money.

But now it's my turn, I'm going to change the playing fields once again and save you a SUBSTANTIAL amount of ... you guessed it. MONEY!

Do you find it dubious when a guru makes a statement quoting you don't need money? Yet you learn, pay per click isn't FREE or to obtain leads it isn't free! I'm going to do the exact opposite.

You DON'T need money to make this work. The only main quality you need are words. Content ... the same kind of content you read online before you make a decision to buy. Not content which is never found by anyone, but content that is at the forefront of your market or niche. Would you prefer page 100 of Google or page 1?

You see I'm putting my neck on the line here... I do this day in day out. I use my OWN non SEO methods, the exact same methods I will be revealing to you, every *precise* step. I've been living off this purely for the last 3 years and it's going strong!

I do read a chunk load of internet marketing material whenever I get the time, the real ways of getting traffic. I can get super affiliates, gurus AND CEO business owners sitting on the edge of their seats drooling over my secrets, with pens scribbling faster than the Tokyo bullet train.

I've also had dirty looks from sharp, suit-pressed directors and CEOs of national corporations when I walk in casually dressed for boardroom meetings. But when I start talking about the free click formula, they walk over and seat themselves next to me like I've now JUST come out of the shower!

This is the real stuff ... the Tony Jaa stuff in the martial arts world, the 50 Cent stuff in the music industry, the Shrek revolution in the cartoon industry. This, my friend, is the stuff in the Make Me Money Without Money Down industry!

This is the real deal behind making money, whether you're an affiliate, a business owner or just want to make money, this is where I make the gurus RUN faster than superman!

- and much, much more...*

Nowhere else will you see such Jackie Chan jabbing techniques all in a blueprint to conquer your niche or market and physically take over your competitor's offices.

I'm gonna be frank as I didn't have the luxury I have now when I first started, it was hard, very very hard. I have been through the 18+ hours a day working lifestyle, not having a clean shave for weeks, walked out on the street dressed like a tramp. I've been there and I cherish those moments but that's when I didn't understand how to add 2 and 2 together on the internet. Now I work in large numbers and that learning curve has helped to trigger me the way I am today.

I understand the grief people are going through today online as majority of the crap we read online is absolute nonsense. I was determined to push, as the way I saw things ... if a college drop-out can make money online, then WHY CAN'T I?

I mean come on ... you read and read, implement and implement and nothing works. You pass by on the cents you earn in the day, determined to make it one day. Today ... **this is your day!** A day where you will learn the same secrets I use daily to make thousands online. No more chump change, the real money is only a [click away](#).

The scariest part is accepting the fact you will be successful. Accepting the fact the gurus will come to you for answers. Accepting the fact that your life long dream of working online and making the real bucks is about to start.

I'll be honest with you, I didn't get lucky. No, not one single bit. I studied, read every cover about marketing, SEO, PPC, Adwords... you name it. I only picked the winners that worked and kept using them over and over again.

A true blueprint that works in ANY marketplace or niche. I'll even show you one of my niche sites in the book that generates a killing for me. I'll also show you a live affiliate site I did just to prove it works for affiliates. **NO MATTER WHAT MARKET YOU ARE IN, THIS BLUEPRINT WORKS. PERIOD!!**

"I just finished reading Google Snatch, and **I can honestly give it my highest recommendation.**

Mini Money Sites are built quickly in order to find winning niches *quickly*. I still recommend using AdWords to send quick traffic to determine winners and losers as soon as possible, but once the winners are found, the **next step is to MAXIMIZE your profits.**

The best way to do that is to minimize or cut your AdWords expense, and **Google Snatch takes you by the hand and shows you how to cut your costs down to an absolute ZERO!**

Latif shows you exactly how to do that, even showing you several of his own 'real' sites as examples. **This book is a keeper, forget the fad tricks, get this one and read it several times, you won't regret it!"**

SO WHAT SKILLS DO YOU NEED?

Like I mentioned earlier, you need to be able to make a simple website or get one created or worst case scenario be able to redirect a domain. The rest is all self-explanatory in the book.

Cash? **Nope**

Experience? **Nope**

Special knowledge? **Nope**

Think about this ... just last week I was going through my post and there was an ugly looking envelope from Commission Junction (I mean who hasn't been an affiliate of eBay). I opened it up and there was a check for over \$1,600. I began scratching my head, thinking why on earth have they sent me this, I don't remember doing CJ stuff.

So typically I went online, checked my account and there it was... I was selling eBay sign ups. Remember I mentioned earlier to wake up and see money in your account, well I forgot to mention checks through the post as well.

The screenshot shows the Commission Junction interface. At the top, there are navigation tabs: Home, Account, Get Links, Run Reports, and Mail. Below these are sub-tabs for Performance Reports and Transaction Reports. The main content area is titled 'Run Reports - Transaction Reports - Commission Summary'. It includes a filter section with 'Filter Results By' set to 'Web site: All' and a 'Filter' button. Below the filter is a table titled 'Commission Summary by Advertiser for Action Type:'. The table has columns for Report Total, Advertiser, New (USD), Extended (USD), Locked (USD), Closed (USD), and Total (USD). The data shows that the total commission is \$1,659.95, with \$1,644.95 from eBay and \$15.00 from GameFly - Online Video and Game Rentals.

Report Total	\$0.00	\$0.00	\$0.00	\$1,659.95	\$1,659.95
Advertiser	New (USD)	Extended (USD)	Locked (USD)	Closed (USD)	Total (USD)
eBay	\$0.00	\$0.00	\$0.00	\$1,644.95	\$1,644.95
GameFly - Online Video	\$0.00	\$0.00	\$0.00	\$15.00	\$15.00
Game Rentals	\$0.00	\$0.00	\$0.00	\$15.00	\$15.00
Page Total	\$0.00	\$0.00	\$0.00	\$1,659.95	\$1,659.95
Report Total	\$0.00	\$0.00	\$0.00	\$1,659.95	\$1,659.95

At the bottom of the screenshot, there is a footer: 'CJ ACCOUNT MANAGER Copyright © 2003-2007, Commission Junction Inc. All rights reserved.'

I've gotten into this stupid habit of NOT checking my account with affiliate sites. Could be a crazy thing to do, but I still receive checks in my Paypal account for websites that I started 18 months ago.

Money Will Come To YOU And You Will Start Scratching Your Head ... Who's Paying This Time. But Most Importantly You Won't Be Worried About Your Adwords Account Anymore!

Wouldn't that be a great feeling? Money popping up in your bank account, your Paypal account and even through your letterbox. I mean the only problem you'll be faced with next is ... when will you find the time to cash them!

I don't intend to put you off here, I'm just making you aware that the content techniques I use WORK for weeks and months in hand. SEO is like pampering a child to be perfect in the ever changing world and Adwords is your Vegas slot machine. Google Snatch is your free click formula to generate ... CASH!

Now don't get me wrong, Adwords is a method of getting clicks, the ONLY downside is ... you HAVE to pay for it!

I on the other hand bring visitors to my site **FOR FREE** that put a bucket load of cash in my accounts, whether I'm at the PC, the playing field, in a different country or even when I'm asleep!

Now wouldn't you want cash being churned into your accounts, **without wishing this time if you've made a sale and without paying a single cent for it? Course you would, you'd be crazy not to!**

What you'll discover inside will shock you as it highlights systematic blueprints to explode your affiliate commissions AND building your own website for ultimate success.

No more setting up campaigns, tweaking, checking every 15 minutes to see if you've made a sale. No more confusion stages to see why your budget is being wiped out and NO sales to show for it.

These are failsafe methods that ONLY you will learn to apply to every market and every niche you can think of. These method will make your learning curve amazingly unique as it's impossible to even go **wrong and it will SAVE you years in the trenches!!!**

This could ultimately be the ONLY guide you will refer to whenever you go after a market or niche. **A guide so stupidly simple yet so powerfully effective!**

- Are you tired of grabbing so many guides that when applied never work?
- Tired of having your time sucked up time and time again and still going back to square ONE!?
- Do you need a step by step guide that will work in ANY market or niche 100% of the time? Step 1 > Step 2 > Step 3? Do this, then do that?

Every newbie, intermediate, advanced marketer or website owner are being sucked dry. They buy the next bandwagon that still teaches them ways to spend *more* money effectively. I mean come on ... we're here to make money, NOT spend a crap load of hard earned cash in a couple of hours.

You will have access to proof, running and failsafe methods that I had the BIG gurus scribbling for notes. They know I was talking sense as their pens were burning out. Then they end it with ... 'Is that it? That's all you need?'

YES!!! That's it.

I've seen thousands of people coming online to get a crack at making money. They read, try, read some more, try some more and the money never hits the bank. I know, because I've been on every bandwagon until I thought enough B.S. is enough. That's the day **I changed the HISTORY of my bank balance.**

I mean how many of you see a BIG guru sending you a bucket load of products to buy in a month. And that's a single month. I know a marketer that sells something nearly EVERY SINGLE DAY!

Its time to stop this nonsense! We're only making THEM money, we're not making money ourselves. We get pumped up with testimonials, figures and earnings yet we are never close enough to even scratch the surface.

I mean I'm sure you've heard stories where tricks are stolen from one marketer, then at another underground meeting, **hardcore insider secrets** stolen under the nose of several BIG super gurus. The ones that are raking in the cash, daily! They don't want you to know or they will be hated for releasing their secrets?

What a load of baloney! They still hangout together as they're all eating from the same pot. Nobody could steal from under my nose as I never really spilled out every bean of detail. Until I was asked to put this in a book!

I know my secrets work day in day out as I use them daily! So I put this stuff together and sent it to a couple of marketers for some feedback, just to see how easy it was to follow. The response ...

"WOW Latif...

... you know you can sell this... you know how many people are looking for the '**REAL**' deal. This will pour money into their hands, without them even really trying."

Rick "**Doctor D**" Del Rio

I've included full websites, explaining every detail of how it's done, why it's done that way and why is

still working today. Sites that I spent several hours on that I haven't touched for months. But wait ... here's the cracker... **when I say a site done from start to finish, I MEAN exactly that!**

Ever seen a website example from gurus making money? The good news for me ... my sites STILL make me money and some were just test sites to prove my point that my methods work anywhere. I mean I even let the guru choose the market as that's how CONFIDENT I was!!!

The results ... substantial amounts of FREE clicks all WITHOUT spending a dime and yet still money in the bank even today!

I've been thrilled by waking up to checks popping through the post with my name on it yet again. Wouldn't you like the same, money coming to you for a couple of hours effort, time and time again, without spending a single red cent? **Course you would, you'd be seriously insane not to!**

This book **HAS** caused a storm, a storm so powerful that the gurus, super affiliates and the BIG corporations **under-estimated the power of Google Snatch** ... they are now screaming for help, pulling their hair out as you enter the playing field with these secrets which is made public for the first time. Techniques that will allow you to beat them at their own game with an advertising budget of \$0!

The first section of the book covers...

Part 1: SEO Myths - Glass Of SEO Shaken Not Stirred

Learn the fascinating truth behind keyword research, the back door keyword variation strategy. The end of days for keyword density, the Sandbox hoax...

Part 2: Optimization - The Real Million Dollar Rolodex

The myth about backlinks, diluted results from keyword tools and why millions are not getting buyers...

Part 3: Content - The Next Generation

Secrets to power ranking and getting your site indexed within 3 hours. The most deadliest and simple way to crank out content.

Let the gurus spend thousands every month whilst you laugh insanely as you snatch their customers off Google for free. They will **HAVE** to give you a share of the pie. They will be forced to reserve a seat with your name on it, this time next to them.

I smirk when I get emails from top marketers asking me to give them a call. I don't wow as occasionally I think ... am I being **pranked**? But I'm not, they want to learn my secrets and I don't

blame them. With a budget of ZERO who wouldn't want to snatch my secrets?

I'm giving you the free click formula hidden away since 1998, exploding techniques that will literally have your bank manager be your best friend. I mean my bank managers love me. They look at my checks and they respond ... 'let me know if you need anything else, here's my card.' I think I already have it (somewhere)... 'well take it just in case you've lost the other one.'

I don't need to make appointments, I walk in, see a long queue, I call them on their PERSONAL cell phone and I'm attended to.

Don't you just love it, when people turn their heads on YOU!? The door opens and the manager pulls out their hand to greet you with a big smile with over 30 people in line for the cashier.

'I need to cash this!'

They take the check, *not the cashier*, the bank MANAGER themselves cash it whilst I sit in their executive, air-conditioned office, several minutes later I walk out of the door with a BIG Thomas Crown smirk on my face.

You CAN get privilege and royal service where ever you go...

Anyway ... back to reality for now. The time has come to know what this privilege secret service of mine is going to cost you. Well the fact is ... it's not about me, it's about you!

Do you want to shine amongst millions to secure your share of the internet pie? Sleep and wake up to bucket loads of cash? Do you want to know techniques that the gurus are begging me for...?

I didn't even know what to price my guerilla secrets at, so I asked around. I asked several marketers as they know the market better than me. I mean straight off the bat, I said \$997! No ifs or buts, straight \$997. I know I can obtain this as for one of my sites I get paid \$997 commission for ONE sale and I don't do anything besides an hour a month.

Anyway marketers confessed to make it available to everyone, everyone who wants to make some REAL money without a single dime to start on. So instantly they came up with \$97 and that really cheesed me off!

Why you may ask? I have spent the last **3 years of MY LIFE gathering intel** to get my secrets to work in any market and I was going to **give it away literally next to nothing? \$97, No WAY!**

I know membership sites that have customers paying \$900 a month to learn my kind of stuff so I wasn't pleased at all and not to forget coaching members paying \$15,000. So I walked off thinking forget it, I don't need the money and I'm not even going to bother to release it, so left it!

2 months went by and they STILL wanted a decision. Over in which those 2 months, I thought about it and just thought it's no skin off my nose, the only people that will be put off will be the gurus, super affiliates and BIG corporations. And I didn't really care about them because they HAVE the money to splash.

So I made an agreement and said let it fire, but ONLY for a few weeks, then I'm going to personally edit the price myself. I mean \$997, \$497, **\$97 is too low** considering the power you get and what others are charging a month!!!

I'm for sure going to send it back to an easy \$497 as I don't have a problem getting \$997 per sale, so getting \$497 will be sweeter.

Unconditional Money Back Guarantee

I'm going to allow you to try this at my risk for 56 days, not happy, just send it back! No questions!

How easy of a guarantee is this?
