Here's some really amazing news for you...

There *IS* a surefire way to find that needle in a haystack opportunity. The one that will make a true impact on your life and make you some consistent and realistic money online!

Right now I'm here to tell you straight out that **there is an honest way for you to make money online** without joining another network marketing opportunity, another high risk investment program, creating elaborate websites or becoming the next internet marketing guru.

Before I created this webpage, I searched long and hard for the right money-making opportunity so that I could leave the "rat race" to rediscover my personal freedom.

Like many people out there, I struggled for many years to find a way to make some extra income hoping that it would eventually replace my full-time J.O.B. income.

I just didn't like having to constantly worry about the next layoff or downsizing...So I had to find a way to break free!

**Imagine Spending Your Time Sitting Under The Sun
While You Make Money Online With Your Laptop After Using My Real
and Fool-Proof Methods! You'll Instantly Become The Envy of All Your
Friends and Family!**

Over the last 15 years I have spent thousands of hard-earned dollars on almost everything you can imagine both online and offline. All I wanted to do was just make money online or offline.

Just to name a few... there's multilevel marketing, mail order, gifting programs, envelope stuffing, buying real estate, tax liens, foreclosures, trading mortgage paper(or notes).

And then came 900 numbers, buying overstock inventory, high yield investments, foreign currency trading, paid surveys, get paid to read emails, hotel seminars and even lotteries.

"I really wanted out of the rat race bad!"

Even after purchasing all the junk programs out there, I wasn't ahead financially. As a matter of fact, I ended up in even more debt than before I started. My wife didn't believe anything I said anymore.

The sad thing is that it made me feel like I didn't have enough support for my dreams. This is a tough situation emotionally and spiritually.

But I believed in my heart that there had to be **some honest ways to make money online and work from home**, so I kept persisting to find an answer, even if it meant being quiet about it for the time being.

It's a good thing I didn't give up because...

"I've Got Your Ticket to Freedom Right Here!"

It all started when a guy from eBay contacted me about one of my online purchase inquiries. It was then that I was first introduced to the first of many new ways to make money online without having to join another multilevel marketing opportunity.

I was tired of joining them month after month and just needed a break from all the phone prospecting (cold calling).

It turns out that this guy was making over \$2000 a day and getting ready to retire, but wanted to mentor a few more people to keep his "golden goose" alive. He said that he wanted his valuable knowledge to live on even after he retired.

It was great that he was thinking of retirement, but even better ... **this was ticket to freedom for me!** It's not every day you meet someone who actually makes money by practicing what he preaches.

Let me first state that I'm not a big risk taker... unless you consider me joining all of the failed business opportunities listed above a huge risk? But I took a chance on this guy and it was the best decision in my life.

You see, prior to my introduction to my new mentor, I was making money the hard way, joining one MLM company after the next.

I also purchased a dozen opportunities from Business Opportunity magazines, and a couple dozen other programs from the Internet. You know the ones...

It didn't matter what program I purchased, I just knew that **I had to try several different ways** and if I could strike it rich with one or two, then I'll be fine. But I always ended back up doing some type of MLM (even though I hated it).

Just Forget About MLM and the Network Marketing Industry - They Suck!

Like I said, my best income vehicle previously was network marketing. I purchased thousands of leads, called thousands of people (real cold calls), sent people to conference calls at all hours of the day.

I spent tons of money on advertising just so that I could make ends meet. Don't worry, this is not a cheesy network marketing program here. I promise. Just hear me out.

"Now I can dump those unproductive MLM / Network Marketing programs"

"Huey,

Just a quick note to let you know that I used your method yesterday, and I just wanted to thank you for a fantastic program. This is the only money making program that's consistently producing profits for me.

Now I can dump those unproductive MLM/Network marketing programs and focus on your method. That's right Huey, No more endless hours on the phone; No more conference calls; No more e-mail blasts and classified ads. in other words No more money down the MLM Rat Hole. Once again Huey thanks. Generating cash with your methods couldn't be simpler!"

The problem with network marketing is that although you can get plenty of people interested in your business and compensation plan, 98% of the people who join you will ultimately quit. Why?

It's hard to say, but my belief is that people may not have the business experience they think they have, but I believe that people just HATE cold calling others, and that's just what it takes to be successful in network marketing.

Everything they join is usually short-lived. And to be honest, I've been guilty of that too earlier on in my network

marketing ventures. So if 98% of your downlines quit, how can you make money?

That is the question of the century and I wish there were an easy answer to that. Other than just struggling along and recruiting new people constantly, there's no way around that problem.

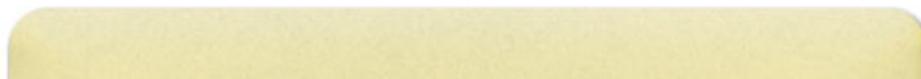

I'll tell you more about how to make money the EASY way in just 1 more minute. But first let me tell you what this doesn't involve so that you don't waste your energy thinking it's something that it's not.

Make Money The Easy Way Without The Hassles Of Traditional Opportunities

If you have always hoped for a way to earn some income without the hassles of high investment costs of a franchise business, or without the hassles involved with network marketing, then look no further.

Because you've found something here that you will not find anywhere else in magazines or on the Internet. Let me tell you **what this is NOT about...**

- **No business startup fees**
- No stocking of expensive inventory like vitamins and minerals
- **No more scams like rebate processing and data entry**
- No more buying expensive leads
- **Not stocks, forex, commodities or high yield investments**
- No office or rent - just a computer and internet connection is all that is needed
- **No more ugly bosses to report to**
- No more commuting in traffic
- **No cold calling or recruiting (no talking to anyone)**
- Not MLM or network marketing
- **No money doublers or ponzi schemes**
- Not handing out cards to high school kids
- **Not getting paid pennies to read emails all day long**
- No envelope stuffing (which is really advertising)

"The single most well thought out and innovative program to create wealth on the internet"

"Hi Huey,

John Denton from the Connection2Wealth eBusiness Center here and I just wanted to take a quick moment to write and let you know that I just finished reviewing your members only area to find it nothing less than "Creatively Fabulous"!

This is without question THE single most well thought out and innovative program to create wealth on the internet that I have seen come across my desk in over two years!

I'm happy to say that I am very excited to be sharing and recommending this to all of my newsletter subscribers.

Keep up the GREAT work my friend!"

This Is NOT Another 'Run of the Mill' Money-Making Opportunity!

Inside the No Monkey Business members area, you will find **honest and unconventional ways to make money** that are proven to be better than anything you have every done online or offline!

That means that you won't be buying more fluff on how to make a fortune with Pay Per Click or anything to do with MLM (network marketing). Nah... that stuff costs a fortune and very few people ever succeed without the expensive mentoring programs anyway.

There are **over a hundred ideal ways to make money** without being involved in any of the things that I mentioned above, that will give you an opportunity to "**quit your dead-end J.O.B.**" once and for all!

Why are there so many ways to make money? Simple!

"There's not one program, opportunity, product, method or system that is perfect for 100% of the people."

Here's the interesting thing though...

Regular people who have never made a single dime on the internet are now making thousands of extra dollars a month using my proven methods! **It doesn't matter if you're a beginner or a seasoned pro!**

"Not only does it make you money but it is really refreshing that such a uniquely great product is available to the public!"

Huey,

Now I'm usually very skeptical about things like this BUT - after testing it, HOLY SMOKES!

Not only does it make you money but it is really refreshing that such a uniquely great product is available to the public especially with all the fluff out there these days.

It would be down-right foolish for anyone to pass this up. **It's easier than almost anything I've seen for that matter.**

I'm humbled that I was wrong about this and keep up the AWESOME work!

Warmest Regards,

Personally, I think it's better if you're a beginner because it's more difficult to un-train the years of misconceived notions about how to make money.

It's probably just human nature that gets the best people by causing them to take a very simple thing and complicate it.

First things first...

"You Have To Pay The Bills Before You Can Make Your Fortune!"

Has this ever happened to you?

You see a money making opportunity and instead of thinking..."How will this help me cover my bills," you start seeing millions of dollars dancing before your eyes, and yet you've never made a hundred dollars in a day or even worse in a month online...?

Don't worry, you're not alone...I was the same way and honestly, so is almost *everyone* else online when they're getting started but...

...Today, I'm going to show you **some real and honest ways to make a living from the Internet** -- to pay your bills and kick-start your path towards riches -- using some untapped methods that will work 24 hours a day and generate multiple streams of profits for you!

No Monkey Business Mantra #1:

Think Small...Win BIG!

I'm sure you agree...no one ever achieves great things in their life without taking small and calculated steps to get there. *Think about it...*you creep before you crawl - you crawl before you walk - you walk before you run - you run before you sprint - you sprint before you drive.

All of these **small things lead to BIG results...**Right?

Now It's Your Turn To Learn The "Amazing Secrets" To Making a Great Living Quietly... And Why These Goldmine Methods Will Work Repeatedly, Even If You're Sitting In Front of Your Computer In Your Underwear Planning Your Next Vacation!

I understand that there are many scams and junk programs out there. Hey, I was once an opportunity junkie myself and I practically own every program you've seen or heard of. Most of the programs have been packed away in a closet in a taped up box, or sitting somewhere in my computer hard drive.

However, since I'm always looking for innovative ways to make money, I still keep an open mind when opportunity knocks, but I also have some strict requirements when pursuing a money making activity (because I've been burned so many times in the past).

Some Requirements For Money Making Activities:

- **Must be able to do anytime and from anywhere in the world (because I like to travel)**
- **Does not require selling anything to anyone - NO buying leads, no selling, no convincing!**
- **Does not have to do with pyramid schemes like money doublers, HYIP or downline building programs**
- **Allows you to determine how much you want to make (from your own efforts)**
- **Does not require a huge financial investment (like a stock market account)**
- **Has a solid risk and reward ratio so that you can manage your profits and expenses**

- Doesn't require purchasing other expensive tools or services to get started
- Must allow you to spend time during hours of the day that are convenient for you

The reason I came up with these requirements is because I was burned so many times in my past, one business opportunity after the next. I have spent well over \$30,000 in junk programs in the past and my wife would not hear of another one.

Even the coaching I purchased from my previous mentor cost me over \$2000. Now I had to build up my courage to prove to my wife once and for all that I had the winning strategy for success, or I would face a very challenging marriage ahead.

When I finally showed my wife my amazing results and asked her to put my money making methods to the test, she was absolutely surprised by the results it produced!

She looked at me, smiled and told me how proud she was of me. There is no greater compliment you can receive from family than how proud they are of you.

No longer did I have to hear her doubt in the back of my mind. I felt total and complete confidence in myself and experienced a whole new positive outlook in life!

That's because **when I know a good thing I don't give up**, and you shouldn't either.

I learned the ropes quickly, partnered up with the right people, and became passionate about making a living from the money making methods that you're going to get access to today. And now I'm **living the lifestyle I've always dreamed of**.

Here are some photos of me and my family doing the things we love.

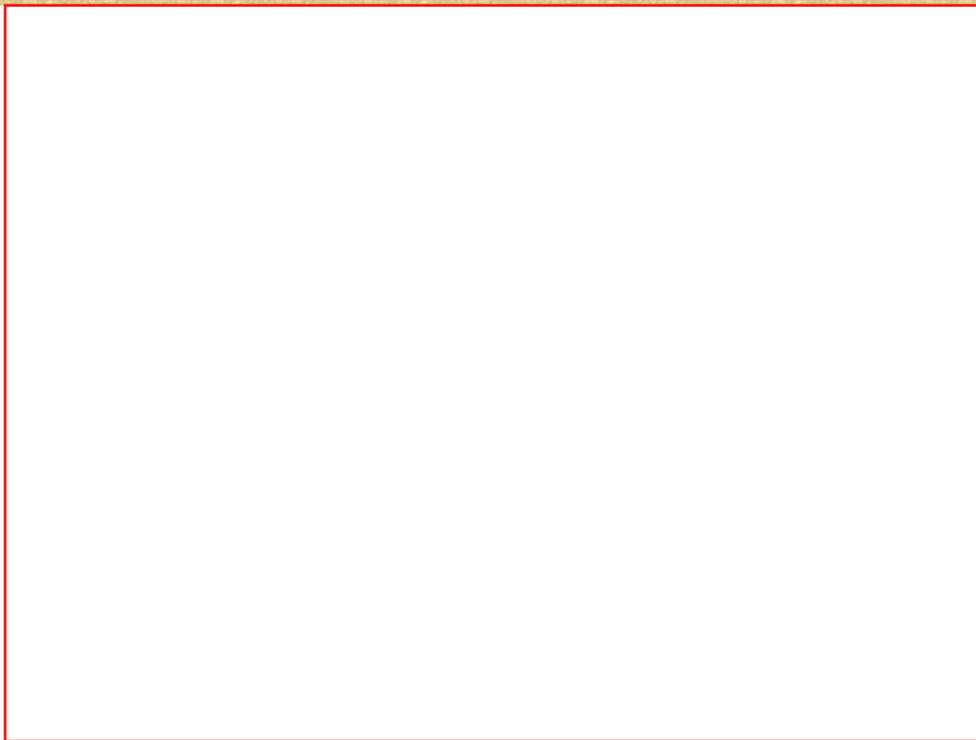

Here I am standing in front of my brand new **4500 square foot**, two-story, custom home that I had built from the ground up. In the photo, I was excited that the contractors finally put up the walls.

Just below is an updated photo of me getting ready to move into this thing of beauty to live the lifestyle that comes with **making money the easy way!**

Even the kids are enjoying the new 'mini-park' playground that I had built for them. And all of this comes from **failing many times before I succeeded!** [Join Now](#) and start living your dreams!

No Monkey Business Mantra #2:

Fail MORE...Not Less!

You've probably never heard that one before, but did you know?...

Thomas Edison, the inventor of the incandescent light bulb, failed to perfect the incandescent light bulb "2,000 times." Some say he failed a lot more than that. But the point is this. Edison didn't believe that he failed. He believe that he learned 2000 ways how NOT to make a light bulb.

When you fail, you are really just propelling yourself forward toward success. You already know what *not* to do, you already know what doesn't work...and despite what has happened to you before the No Monkey Business - Money-Making Methods were in place, **the truth is...you can now 'super-charge' your success rate and keep moving ahead toward independence.**

Start Your Journey To Financial Independence...

I know **I can help you become the next success story** and I'm going to reveal to you in full detail what I do, how I do it, and how you can **apply my simple methods** to create multiple streams of income and to finally work on your own terms.

These methods are so easy that **even a teenager can do!** Don't believe me, watch and listen to how 16 year old Sunny followed the methods and made easy money. [Secure your spot today!](#)

Get The Help You Need Along The Way To Success

Like most people, I've purchased many of the popular e-books and courses on making money ranging from \$27 up to \$4997 from many of the self-proclaimed home business gurus out there.

The one common problem that I have seen over and over again is that many of these **marketers leave out key pieces to the money making puzzle.** That's why most people are still failing with making money online... even after they spend a small fortune with their guru to show them how.

The worst part is not only are you lost after reading these ebooks, **there's NO ONE you can contact for help or support.** Am I right?

I mean...think about it. How many times have you purchased an ebook about some money-making topic (like Google Adwords, or some lame Type-at-Home Data Entry program) only to find out that most of the information was unusable, outdated, or watered down?

And then when you need help, there's no one at the other end to help you.

Yeah, it happened to me many times, and believe me, I was upset and angry. These insensitive and greedy marketing con-artists are still roaming the internet today, proclaiming themselves as gurus who are looking out for your best interest.

Fortunately, I learned a lot from *my* mistakes and discovered the truth about how to make money online and offline.

It was an expensive lesson and I'm thrilled that I made it through and able to tell you about it, and now I'm the most qualified **to HELP SUPPORT you** along the way! Don't believe me, give me a call or send me an email.

You can see that I'm not kidding when I say that support is a critical element to keeping you from wasting any more time with making money. [Click Here & Join Now!](#)

"Making money is not that hard as long as you know what to do and what NOT to do!"

I just wanted to drop by and share **how happy I am with Huey's No Monkey Business program**. You see making money is not that hard as long as you know what to do and what not to do. Most of us veterans of the Internet learned these things the hard way.

One thing that jump right out at me in this program is one section that thing Huey has included that exposes quite a few rip offs. As I was going through them, I found a couple of services that had ripped me off before. And I lost thousands of dollars investing into these scams. Huey gives you an entire section to warn you about them so that you don't lose money like we did.

Rather, he shows you **ways to invest into what's making real money like we're doing**. There are many categories of ways to make money inside the member's area, and this same strategies he is sharing is generating me and my friends tons of profits.

So I highly recommend that you give No Monkey Business the attention it deserves. Get the program, study it, master it and profit from it like the Big Dogs because **with Huey...you are in great hands!**

"If I wanna become successful making money on the Internet, you're the man!!"

"Hi Huey!

I'm 46 years young, married to Hanna and we have five wonderful kids together. We live out by the coastline, southeast of Sweden. I have attached some pictures so that you, could see whom you are about to mentor to a new, and financially, better life!!

We are in some debt due to the fact that we started to live our dream before we actually had the incomes doing so! But there was something that got into me, that day in April of 2002, and it was the dream to **become financially independent** from all and everything so that my family could spend more time together, work less, and to do whatever we felt like, at whatever time in the year, to work with what, and who we wished to work with.

That fire is still burning! But at a certain point we just couldn't continue (GOOD for us) and life taught us a lesson...to just **never ever quit**, no matter what the obstacles are. Never!

Yesterday was the first day of the rest of my life! Right now, you are my best friend :-)

If I wanna become successful making money on the Internet, you're the man!!"

Cheers,

Are You Asking These Questions?

Q: "After I enroll in the program, are there any additional costs to get started?"

Most of the methods I reveal to you are FREE to use, where you can start making money right away without any further investment. There may be one or two specialized programs that require some further spending but they are totally optional. The primary thing that is required is a little of your time and effort.

Q: "Do your methods involve anything illegal, adult related, or gambling related?"

No. Every program has been tested and proven to work legitimately, and in most countries around the world.

Q: "Can I do this, can I really make money?"

While the methods are designed with the average person in mind, it still takes action on your part. If you're the type of person who is a doer and not just a talker, then you'll be fine. Otherwise, if you don't plan on reading and following the instructions, and then executing on those instructions, then this is definitely not for you. As a

matter of fact, making money may not be for you entirely. Because if you can't take action on the simple methods I offer you, there's no way you're going to take action on all of complicated programs in the marketplace.

Q: "Will you help me if I get stuck?"

I think you already know the answer to this one, but I'll say it anyway.... YES!!!! You can call me, email me, or Skype (instant messenger) me. Plenty of ways for you to reach me, don't worry.

I'm a firm believer in not only over-delivering quality information, but helping the "little guy" along the way.

Remember, I was once the "little guy" too who just wanted to make enough money to quit my job, and I tried many methods along the way to get me to where I'm at.

But if I had someone like me help me back in the days, I could have found success much sooner, by learning how to do things "outside of the box".

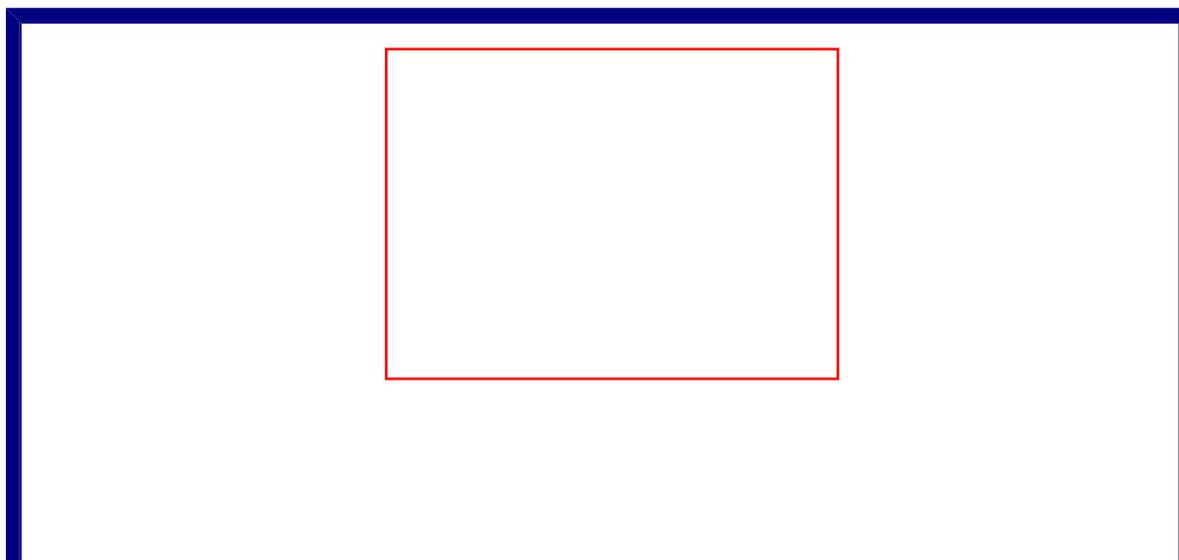

It doesn't take a rocket scientist to figure out that the most successful people in the world...those that start out from humble beginnings like you and me...they have one thing in common...They ALL do things their *own* way and only listen to those that have achieved a level greater than themselves.

If you keep uncertain people and negativity around you, that's all you'll ever get in return. If you listen to positive influences and have a clear and focused goal, **you will achieve GREATNESS!**
