This website is hilarious. If you haven't read it yet - you have go to !!

Here is a quote from it

And since you found this site, I'm sure you already know that there are thousands of "get rich quick" programs on the internet today. You've probably even bought some of them yourself. Well, are you impressed with them? I'm not. Not even close. What proof do these losers have of their earnings? That they make a few thousand dollars a month? **Big deal. I make millions.** And my income is so automatic, it would make you sick.

What's Included in my Rich Jerk Program:

- How to easily create a website that sells products like crazy - products that YOU make a commission on.
 - How to make a **killing** even if you have no website, and no clue how to make one.
 - How I put my competition out of business on Google Adwords.
 - How I get a 20%-50% click through rate on my Google Adsense ads.
 - How to build your own email list - and how to send out cash producing offers to them automatically.
- How I had the # 1 ranking website in Google for 3 years, for terms such as "bad credit", "bad credit loans", and more. Over 100 million competitors couldn't beat me - Even the big lending companies.

- How to use both "white hat" and "black hat" strategies to your advantage.
- How to create your own ebook/informational product in just 2 days - with ZERO costs.

- How to create websites with search engine friendly content about subjects you know nothing about.
 - How to create your own eBay Powerseller business.
- Where to buy wholesale consumer products that are "hot", for the lowest prices, in bulk. A list of my own personal sources not found anywhere else. Resell on eBay. Dropshipping available.
 - Examples of websites you can create RIGHT NOW that could be instantly profitable.
