

FOREX LOOPHOLE

"How A 36 Year Old Forex Geek Siphoned Off Up To \$1,200 Per Day Using A Deadly-Accurate, Push-Button Formula..."

Over, 2,500 Students Can't be Wrong - The Only System For Newbies, Frustrated Traders and 9-to-5ers With Little Time...

Fellow frustrated Forex trader,

You need to forget everything you've been told about Forex trading - systems, indicators, uncertainty, and even "good ol' hard work"...

You've been misled and misinformed - and force-fed information which is directly blocking you from siphoning off a profitable second income from this trillion dollar market...

I should know, because I have already shown over 2,500 Forex students the path to success, and have now decided to release the ultimate Forex system...

- ✓ a system designed for 9-5ers with little cash
- ✓ **only requires 10 minutes per day of your time**
- ✓ is 100% mechanical - with NO monitoring of the markets needed.
- ✓ **proven to generate up to \$600 from a single trade**
- ✓ absolutely perfect for newbies to the world of forex trading

It's time for you to put an end to the lies and failure - and experience the thrills of seeing my specific formula turn simple trades into instant income...

My revolutionary new blueprint uses absolutely NO indicators whatsoever, requires NO monitoring of the markets.. and works with laser-targeted precision for maximum profit...

Here's how I discovered this unique, never-seen-before system...

PROOF: \$600 profit the easy way

May 7th/08 USD/CAD
Long Entry = 1.0025 | Exit at 1.0085

\$600 Profit

\$600.00 PROFIT for less than 10 minutes' work - just by following an exact formula the system spits out.

The 10 Minute Formula For Forex Success...

Step 1: Each night you sit in front of your PC and review the market- a simple black and white process. It's so simple even a 16 year old could do it!

Step 2: You confirm that two special "in the money" conditions are present

Step3: Open your trade with the EXACT entry and exit points we hand to you.

Step4: That's it - set the orders and you're done. Sit back and wait for the pips to roll in...

Why Some Traders Fail - While Others Succeed...

Having been trading Forex for over a decade, and with over 2,500 students now using my methods, I have a pretty good idea why most people fail to profit with Forex.

Most sit around all day, applying a "discretionary system" - leaving them stressed out, and out of pocket. Then they wonder why they can't close a trade profitably.

The simple truth is that you need a hands-off, stress-free formula if you want to make consistent money with Forex - one that you can apply at a time that suits you ...

Only by cutting out your emotions, and letting a truly hands-off system do the work for you, can you siphon off a second income from home...

And it's taken me over two years to say it, but I have finally found a profitable system that is 100% mechanical - with no mastering of your "gut instinct" involved.

The days of useless discretion, judgment and interpretation are OVER...

Just load up my formula, follow the prompts, and enjoy the rewards.

In fact, the reason my system works so well is that it's a practical formula, based not only on my successes and failures, but feedback from over 2,000 other traders, who I trained up using my now-famous Forex Assassin system.

It's taken me a long time to say it - but I've finally "cracked the code"...

The end result is an easy to follow system that requires very little time, and no experience to start generating profit.

Just look at some of my previous trades...

\$700 PROFIT (But Keep Your 9 to 5)

This trade was triggered on Monday May, 12/08 on the USD/JPY.

After our simple 3 step process on Friday was complete, we knew this trade would take place on Monday. We entered shortly after the open on Monday and ended up with a 70 pip profit that same day.

The set and forget nature of this strategy makes it perfect for those looking to get into the world of Forex trading without leaving their job.

Believe me, I know how frustrated you feel...

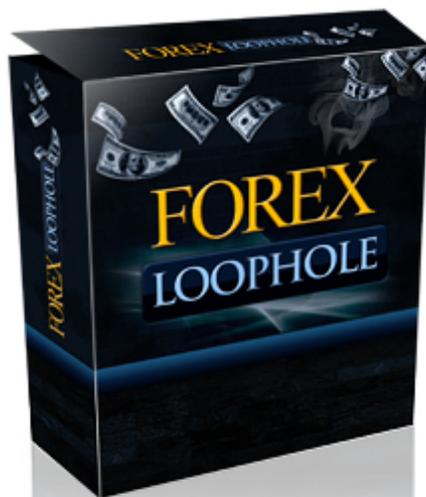

I have spent the last few years trading forex but my success is purely down to the fact that I have tried and tested every forex system out there.

The truth is I have been a trader for near on a decade and throughout that time have seen many changes in the Forex market -- with many strategies and systems being used.

In fact, over time I have tested more than 40 indicators, methods, strategies and systems for Forex trading. I've been in your shoes...

I've been there - been ripped off, been scammed, been overloaded and confused with unnecessary jargon... but over time I actually began to really understand the Forex game and how to 'milk' it.

And then I went ahead and did the next best thing... I set to work and started creating my own system using my own formula that was working to produce profits for me consistently.

The Forex Loophole

- **The Ultimate System Designed for 9-to-5'ers - it takes just 10 minutes a day.**
- **Test my system without risking a cent**
- **ZERO decision making required - and NO need to monitor the markets**
- **Perfect for newbies - start with minimal cash and be up and running within minutes.**

Does any of this sound familiar...?

You've thought about trading forex but don't know where to get started...

- ✓ You understand by now that the main problem with 99% of forex trading systems out there is the fact that they use indicators.
- ✓ Perhaps you've already purchased a Forex system but it was just too complicated to follow and it's now on your shelf gathering dust - a wasted investment!
- ✓ Thought you couldn't make money with forex trading if you have a 9-to-5 and little capital.

Well, let me expose the truth once and for all...

"A Forex system designed specifically for 9-to-5ers, beginners - and the Forex trader who wants a simple, clear path to plug-in-and-go profits.."

Well, firstly... let me be blunt: you can forget about all those other useless forex systems relying on countless indicators, fibonacci charts and other mind boggling formulas.

Forex Loophole is all about making quick and easy "money grabs" at a time that suits you... *it's that simple!*

Have you ever tried to understand and profit from all those other forex day trading systems? Maybe you have made a profit - but has it been consistent day in and day out, week in and week out? I doubt it and if it had you wouldn't be reading this page right now.

My completely unique system lets you trade without emotion and lets the trend become your friend, **while trading in a time zone compatible with your life and your commitments.**

You don't have to sit in front of a computer all day long or for hours at a time monitoring the market. And since the market is open 24 hours you can keep your 9 - 5 and trade around your job and family commitments...

Believe me it couldn't get any easier!

Over the years I have spoken to countless people who thought they couldn't trade forex because of their 9-5 grind and the assumption that to make money with Forex you'd have to sit in front of a computer screen all day.

That may be the case with the hundreds of other systems out there with their day trading and horrendous charts...and if you have more time and money than sense, well I suggest you go and seek those time wasting systems out now.

But if you're like the majority of the population - you have work and family commitments that you can't just drop in and out of when you like.

This is the exact problem I intended to address when I released my previous Forex system, the Forex Assassin... it was an overnight success and quickly become a best-seller...

Just look at some of the feedback from the 2,500 customers I trained up using *that* method...

"386 Pips in My First Week..."

This is the first week of using the system and I have 386 pips for the week, trading the pairs you recommended and the euro/jpy.

Calvin Mackay, Quincy CA

"300 pips up..I am impressed."

.... **So far 300 pips up.** The least the strategy gives you, is an appreciation for not trading the noise (i.e.: the small time periods).

I say this because we all want to get rich quickly but cannot handle the stresses and discipline required in getting rich quickly. Anyway, there is nothing such as "getting rich quickly". It is a one trade fantasy. Overall I am impressed, **the first signal system that has shown promise.**

Dorian Desouza Faria, Singapore

"So Easy... Astounded with the results."

I have been paper trading the 6 currencies and I am astounded with the results...I am impressed and hope to trade with real money next week. The method of doing all the work on a weekend really appeals to me and makes your system so easy ... brilliant ... many thanks...

David Fong Brisbane Australia

So, with a track record like that,... you can imagine why the hype about Forex Loophole has been so intense...

"Do you want to copy me and make fantastic money for very little work?"

I can only guess what your reasons for forex trading are. Maybe you:

Hate your day job and want to get out fast... Forex Loophole can show you how to make an easy and consistent income from the comfort of your own home...

Just want an easy second income coming in each month ... If you have a PC and a spare hour each week, you could make a tidy living, trading from home...

Want to trade for the sheer excitement of it ... Finally experience the enjoyment of knowing you have a winning system...

... or maybe you want to do all of the above?

There are hundreds of forex systems out there all promising high return guarantees - but how do you know which ones really make money over the short and long-term? Sure there are some decent ones, but how many do you have to try out before you find the 'the one'?

Surely it's better for someone else to do the hard work for you - saving you the time and frustrations of searching for a system that works?...

Are you ready to abandon everything you thought you knew about this "trillion dollar market"?

It's quite simple... this system will teach you how to profit consistently and systematically trading the Forex market.

So forget about indicators, useless jargon and mind boggling formulas and horrendous charts that you get with all those other useless forex trading systems.

Forex Loophole is a simple 4-step automatic formula that takes just 10 minutes at the close of day. And because you only need 10 minutes a day it means you don't have to sit in front of your computer for hours on end - so you can get started even if you have a 9 to 5 or other commitments...

Just 10 Minutes a day - profit when you choose...

Forex Loophole is specifically designed to work alongside your 9-5, you choose when you want to trade - you just follow my step-by-step blueprint, and place your 'pending orders', leaving you to get on with your commitments rather than babysitting your pc.

You don't need loads of cash to get started - because, let's face it the average person doesn't have loads of spare cash lying around each month.

With this system you can get started with as little as \$100-250, secure in the knowledge that if you follow the steps laid out for you - you'll make your investment back and more very quickly.

So you get to trade a market that is open 24 hours day which means you can keep your 9-5, your 10-6 or whenever your 9-5 happens BUT trade around your job and family commitments... how flexible is that?... believe me when I tell you, it doesn't get much better!

The System is so simple to use - even a teenager could do it!

The trading system is so simple and straightforward to use but you still get step-by-step instructions and videos walking you through the steps.

There are no indicators to think about, no jargon to understand and no decisions to make.

I developed the system to be so simple that anyone, even without any experience of trading could follow the steps. And who has time to study... or would even enjoy studying a whole bunch of formulas, fibonacci charts and jargon anyway?

Take my recommendation - start trading Forex the right way. Do it the hard way and you'll lose money hands down every time. I know - because I've already been there and done it.

Just copy my simple, step-by-step system and enjoy the rewards...

It's 100% mechanical - no need to think about what to do next.

It requires just 10 minutes of chart scanning each night

- ✓ **There are absolutely no indicators to get all tangled up with.**
- ✓ It's perfect for those entering the Forex market and for those who have wasted their hard earned dollars trying to understand other Forex systems.
- ✓ **It's simplicity is its success - so you don't have to think or make gut wrenching decisions.**
- ✓ Works with many currency pairs and not just one (like most systems). This is key if you want to be a forex money pumping machine. Why settle for trading opportunities in one currency pair when you can milk several pairs, day in and day out?
- ✓ **It's a step-by-step system - mechanical as 1,2,3, - perfect for 'new-to-forex' traders, or veterans looking for a consistent system.**

Forex Loophole Features

- ✓ A unique 100% 'set and forget' forex trading system - the ultimate in Forex trading, again perfect for 9-5er's with little time or capital.
- ✓ A system that allows you to use P&C or Pending Orders so trades don't need to be 'babysat' and you don't spend all day in front of your pc - no monitoring the markets for hours on end
- ✓ You can start with as little as \$100-250 in your forex account.
- ✓ The beauty of the system is that you can test the system without trading any of your capital. Open a demo account and 'paper trade' to test the system first.
- ✓ You can start trading using this system within minutes after downloading.
- ✓ The system I have developed is proven to be reliable and consistent. Period.
- ✓ The system works in any country and with any broker.
- ✓ A perfected, simple and easy system that will tell you exactly when to enter and exit the market - removing the decision making process for you and using our loophole discovery - a complete innovation in Forex profiteering for 2008

Why Forex Trading is the easiest business in the world - if you know *how* to tap into the trillion dollar market...

Because this is, without question, the easiest way to make money that you are ever likely to hear about!

The internet works 24 hours a day/7 days a week /365 days a year! Let it work for **YOU!**

Forget about all those other schemes promising to make you money... bonds, stocks, investments, mlm, get-rich-quick schemes, franchises, licensing products and real estate investments. All they do is cost you a fortune in time, money and sheer frustration.

You don't need to learn how to build web pages, learn html, get leads, get sales, do any research... in fact there is literally nothing for you to do with forex trading. Just follow a few simple instructions and punch them into your trading account weekly. How simple is that?

Forex trading can give you the freedom to really make money without all the hard work and up front costs!

It is just so damn *simple* compared to setting up any other kind of conventional business where you would have to risk a lot of capital just to get started.

With forex trading you don't need staff, stock, selling pitches. the market is open 24 hours and is there for the taking...

So what would you do with a second income every month...

Pay off your debts, pay off your car loan,... whatever you have in mind? Using this 'ready-to-go' system could provide you with a fantastic second income and give you new choices in life.

So maybe your asking...

Will the trading system actually make money for me?

If you've read this far you will know that I have been trading for many years and I've seen (and used) the good bad and the ugly. Day in and day out ...and hundreds of systems later,... I have finally fine-tuned the exact criteria for success with forex trading.

Is the system easy to use?

We know you want to make extra cash, but you also want a system which is easy to follow and easy to implement. We want you to have clear step-by-step instructions -- which is why we have designed the Forex Loophole formula to be as simple as starting a car.

Will the System work anywhere in the world?

Yes, I have devised the system so that it can be easily used from anywhere in the world.

And what about customer service?

All too often there's a 'take the money and run' attitude to these systems. They talk the talk and say all the right things to get your money, but once you have the system they don't want to know! Not so, here... whatever your question you will always get a full and prompt reply.

Can you make money while you're at work?

So often a trading strategy is unworkable because you have to follow and react to live results through the day - something that is almost impossible for most of us who work! With this system, all that is required of your time is 10 minutes a day. No time-consuming monitoring of the markets is required.

Will I easily learn how to use the system?

Yes, absolutely. Because the system uses a revolutionary formula (again, you will be provided with it). No need to learn or understand, complicated charts and indicators.

Why are you making this system public if it works so well?

Why not? There are literally trillions of dollars traded on the forex markets every single day - more money than on the **WORLD** stock, bond and futures markets together.

Staggering amounts of money are being traded by governments, merchant banks and individual traders like you and me daily.

So, this system can be sold thousands of times over and still continue to profit for years to come. There is

so much money floating around the forex market that it is nigh on impossible for it to affect you or I trading - there is more than enough to go round for everyone to have a cut of the pie.

\$1200 PROFIT (fully test-drive it yourself)

The chart above shows a trade that triggered on May,16/08 on the EUR/USD.

The trade took 5-10 minutes to set-up and place the entry. We then sat back and let the trade work itself out. A very hands off approach with just a few minutes needed each night.

So How Much Is Automated Forex Success Worth To YOU?

What would it mean for you to be able to fire off forex trading with unstoppable confidence and a system that will bring you in profits from day one?

How would it feel to go from zero to having thousands of dollars in your account in just a few weeks? What price would you attach to pay off your debts, give your family the support they deserve?

Now I could easily sell this system for \$750, and **I know that there are enough people smart enough to gladly pay that price.**

But for now you have a unique chance to get the Forex Loophole System for only \$77.

Over the last eleven years, I've invested tens of thousands of hours - and not to mention the thousands of dollars - perfecting my craft, ...

I've already trained up thousands of Forex traders from around the globe, and from all

walks of life...

And when you consider how much you currently spend chasing your dreams, you will quite clearly see what a saving this price represents.

But I'm not going to try and convince you or sell you on the system.

If you have read this page in its entirety you will either 'get the message' or not...

And if you do 'get the message' you'll reap instant and consistent profits from the system.

It's really a no brainer...

"GUARANTEED Forex Trading Success or your money back..."

Your order is protected by my full unconditional 56-day money back guarantee ...

I know that you want to access the secrets that will take your trading to a whole new level...

And I know that you have the best chance to do it with my new, revolutionary Forex Loophole system.

But I want to ensure you are fully protected, which is why I am offering you a full 56 days to test-drive our trading system with absolutely no-risk to you whatsoever.

If for any reason whatsoever, you are unhappy, just let me know , and your fee will be quickly refunded. No questions asked...

YOU MUST MAKE A DECISION NOW...

You can download the Forex Loophole package instantly - just click the order link below, and order via ClickBank's secure servers...

Order now, at the discounted launch price of not the \$297 some of my partners suggested, not the \$750 Forex Loophole could generate with a single trade ... if you order now, you can secure your copy at the temporary launch price of \$77

But remember, this price will not last - opportunities like this rarely appear, and when they do, you need to take action right away.

So, the question remains: do you want to profit from a trillion dollar game the easy way, or potentially lose the opportunity forever?

In short, you must make a decision now...
