From: Paul Evans
Founder, Forex Virtuoso

Dear Fellow Trader,

It's a big deal for me to even write this letter.

And I'm telling you right now - I never wanted to.

I've never been a fan of hard work. I was perfectly content with my life, enjoying life as an *underground forex trader*... having the whole 'picket white fence', going on vacations, sending my kids to private schools... you know the story...

And it would've stayed that way indefinitely, until...

My Best Friend Got Screwed Over.

I still shake my head when I think about it.

My best friend from childhood - I'll call him Joseph because he has a very unique name and I doubt he wants anyone to recognize him - confided in me that he lost \$18,000 in two months trading forex.

I'll never forget the way he looked. I had been away on vacation, so I hadn't seen him in 3 months. In the span of 90 days, he looked like he aged decades.

Before I left, he was a healthy looking 43 year old. When I got back, his hair was disheveled and graying, his eyes were sunken-in with bags underneath them, and he must have lost at least 4 inches around his waist.

It was scary.

The first thing that I asked him was why he didn't ask me for help. He knows I'm a successful trader. He's seen the cars I own, the kitchen I just remodeled... He's seen the checks...

But he told me that he saw *a website that "stood out"*. He said he'd been to lots of websites that sell forex systems -- but this one was different.

Apparently there was a guy on the screen who was talking to him, and he could "see" this guy was a genuinely good guy. He could just tell this was the site that was going to help him become rich.

Now, I've always known about these lies and scams. I've turned a blind eye to them because the people who go to those websites were just anonymous strangers. I didn't know them, so I didn't care much.

But when one of those strangers was MY FRIEND, the tables quickly turned.

Every time he told me another detail about his horror story...

....I Got More And More Fired Up

He said he started looking into forex when he wanted to supplement his 9-5. He knew that's how I got started, and figured that it couldn't be that hard - *after all, I never even got a college degree.*

He was smart about it at first... playing with a demo account. When he did well with that, he put in \$250 of his hard-earned money. That did well too, so he went on to put more in.

He lost a little bit, but thought he could recoup it... so he put even more money in. The cycle just kept going on... until his daughter's entire college savings fund was in there.

On one hand, I couldn't believe his recklessness. On the other hand, I knew it very well. I see it happen all the time.

You see, what most successful traders know and rookies don't is that...

To Wildly Profit From The Forex Market, You Need A Hands-Off, Consistent System That Doesn't Require Any Discretion

It might sound harsh, but it's true. On paper, it might sound easy to hit the "Buy" and "Sell" buttons. But when you're actually doing it... the anxiety, panic, and stress can thud on you like a sack of potatoes coming from the sky.

It can make good people change overnight.

And for those of you who think you should use your "gut feeling" or "intuition"... I'm going to be blunt and say that's absolute crap.

When you have your hard-earned money on the line, the only thing coming to your head is *100% pure emotion.*

Greed, panic, fear, anxiety, stubbornness... or there's people like Joseph, who get so caught up in ego that they can't let go...

Listen.

There's a reason I'm so successful. And I'm telling you, with stone-cold confidence - it's because I have a scientific, lab-tested, and time-proven trading system.

And when you have a potent, completely mechanical system like that...

You No Longer Rely On LUCK, And No Discretion Required

Trading becomes an easy way to supplement your day job. An easy way to siphon off a hands-off extra income.

It took me and my team 3 years of hard work, \$60,000 in development costs, and rigorous testing to create the Forex Virtuoso system...

...**A proven, battle-tested, completely mechanical system** for "the little guys", the novice traders with no experience, and the 9-to-5-ers who have little capital... little time... or no patience... to trade forex the old and boring way.

From our meticulous testing (back-test and forward-test), it can potentially make up to 515 pips (\$5,150) each and every week.

And you'll be excited to know that...

- ✓ It fits around your 9-5 schedule (if you have one)...
- ✓ It's 100% mechanical, NO monitoring of the markets, NO analyzing charts for hours search for a 'perfect pattern'...
- ✓ It takes only 15 minutes a day to win...
- ✓ It involves NO thinking whatsoever and...
- ✓ Has been proven to generate up 416 pips per trade...

Now, I've been trading for almost 9 years. I've seen a lot of people come and go.

And I wasn't going to let Joseph be one of those people. So I decided to give him *access to my system*.

You see, most people think trading has to be hard. That was Joseph's problem.

They think that some fancy-pants strategy or complicated formula needs to be implemented in order to make any amount of money.

You might be pissed off to know that even though I earn big-time money...

All I Do Is 'Set It' And 'Forget It'.

Why make things more complicated than they need to be?

I know what you're probably thinking.

"No way!"

I know because Joseph's eyes bulged out of their sockets when I explained my setup to him.

He saw that my system was completely mechanical... with no judgment needed...

It's consistent and reliable... and shockingly simple.

It assumed absolutely zero knowledge... and caught trades that most traders missed out on. In fact...

Here's The Complete Breakdown:

- 100% mechanical. Just follow the simple, crystal-clear rules... and profit...
- No decision-making, no judgment, no discretion required...
- Already proven to generate as much as \$950 in a single trade...
- Designed specifically for the 9-to-5ers and the ordinary traders who have little time and money to invest...
- No thinking involved with this completely mechanical system (It's as simple as when A and B happen, you do C.)
- No more than 15 minutes needed daily - My system generates 288-416 pips almost every single trade, practically on set-it-and-forget-it (That translates to \$2,880 to \$4,160 in cold, hard cash)

pumped in your accounts).

- It assumes you have ZERO knowledge... No learning curve.
- No fancy formula, no rocket-science calculations.
- Can be used anywhere - no matter where you are in the world
- Shockingly simple, reliable, and consistently profitable system that siphon off an easy, steady income from the forex market into your bank accounts.

Obviously Joseph wanted access to my system, and I wanted to give it to him. So I took all of my best forex trading strategies... every finest details of my stealthy, underhand, little-known techniques...

And put them all in what now becomes... Forex Virtuoso.

Get this... What I put together is nothing short of revolutionary. Every tip and trick... every strategy and secret... I use daily to pump out profits from the forex market... trading less than 15 minutes a day.

Forex Virtuoso is a never-before-seen masterpiece of underground trading techniques that's going to light your bank account on fire.

And this, my friend, is where you come in, and why I told you to pay close attention at the beginning of this letter. You see, I decided to share my system with a few select people.

And you might be wondering...

"Why Would I Want To Give Up My Bread And Butter?"

My wife gave me slack for it at first, until she realized that the better question is... "Why NOT?"

Here's what I told her:

1. I can't turn a blind eye to those fake "pie-in-the-sky" websites anymore... I know firsthand how people get affected by them.
2. There's over \$3 trillion being traded every day in forex. You think the few

select people I give access to are really going to impact me?

Hardly.

But before I go on...

I'm Going To Prove How Wickedly Effective This Is.

I'm about to share some trade examples with you that show how Forex Virtuoso effortlessly generates up to thousands of dollars per trade.

If this is all "gobbledy gook" to you right now, don't worry about it. I'll show you exactly how everything works once you get Forex Virtuoso, and it won't take you any more than 15 minutes to completely understand and apply it.

Proof 1 - EUR/USD Pair:

Profit: + 515 Pips (\$5,150 for each standard contract).

Time spent: less than 20 minutes. Just plug the formula inside Forex Virtuoso in, sit back, and watch the profits roll in...

Forex Virtuoso tells you exactly where to enter and where to exit with your profits...

EUR/USD

Proof 2 - GBP/USD Pair:

Profit: +307 pips (\$3,070 for each standard contract).

Proof 3 - USD/JPY Pair:

Profit: +426 pips (\$4,260 for each standard contract)

USD/JPY

Yes, it really is that ridiculously easy and automatic. It works for newbies and seasoned traders alike.

But...

Before You Start Getting All Excited...

There are some things you need to know. I wouldn't feel right giving you access to Forex Virtuoso unless I made 3 things crystal-clear.

See, I know those other websites like to promise a lot, and then they don't tell you what the risks are. I refuse to operate like that.

So here's what you need to know:

1. Once you get Forex Virtuoso, I don't want you to put in any money until you've played with everything and know completely how to work the system. I mean this...

Yes, you'll get the hang of it within 15 minutes.

Yes, it's as easy as "If A and B say this, do C." I know.

But I still want you to at least take that 15 minutes and be completely confident before you put in your hard-earned money.

2. I want to warn you that **this system isn't for everyone**. I don't know if this is you, but... some people have a natural fear of success.

Sounds weird, but I was one of those people when I started trading.

When I see how effortless it was to make thousands on demand... I got scared.

I truly think some people find comfort at being at the bottom of the ladder... this way they can be angry and play the "victim" role. They're the people who might be handed everything on a silver platter... and then knock the platter over (while saying it was an accident).

Please - only order if you truly want to succeed.

3. **You're going to register small losses once in a while.**

It's true - even the best of the best get it wrong sometimes.

Now, of course I've taken extreme precautions to make sure this doesn't happen with Forex Virtuoso... and you and I make the most profits, there are going to be days that we'll experience losses.

It's not a big deal - I'll show you how to minimize risk and losses when things like that happen... but it is something you need to be aware of.

Anyone that says anything different is an absolute liar.

So you're probably wondering by now...

What's The Investment To Go From Poorhouse To Penthouse?

First of all, I want to let you know that not everyone who wants it is going to get access to Forex Virtuoso.

I reserve the right to shut this page down at any time.

With that said - I wasn't sure how much to charge for this. I know courses, seminars, and classes can cost \$1997 and upwards.

But then I realized that there are people out there like Joseph... people who desperately need the chance but don't have a lot of money to shell out.

So I finally decided to keep **your required investment at only \$77.**

But here's the bad news: I'm severely limiting the number of copies released. Only 300 people will get access to Forex Virtuoso system.

Please be completely clear: if you come back to this page even 5 minutes too late, there won't be any exceptions. The system will be pulled off the market... and I'll have to say "I told you so".

And even if that investment sounds a little much right now, think about the fact that your entire financial future is going to look bigger and brighter than you could have ever fathomed before... all at the push of a button.

In 15 minutes - the amount of time it takes you to instantly download, understand, and apply the system - your entire financial life could be different.

And that's not all. It gets better...

To Sweeten The Offer Even More...

If you manage to get one of these 300 coveted spots, you'll get another highly effective trading system for FREE.

It's called Forex Connoisseur - the secret 100% mechanical system which has been responsible for making me boatloads of pips every month.

That's right, I'll give it away to you. It won't cost anything, even though some members of our personal coaching club even offered me upwards of \$1,500 to get their hands on it.

But you pay nothing.

This is a huge bonus easily worth the entire investment in Forex Virtuoso.

Considering you're going to understand it after 15 minutes, you're going to have 59 days, 23 hours, and 45 minutes to play with it afterwards.

If you're not thrilled when you're done... if you're not seeing the kinds of profitable trades I'm telling you about... then I WANT you to ask for your money back.

I truly do. The last thing I want is to be compared to those websites that scammed Joseph. You don't like it, ask me for your money back.

And keep the system as my apologies for wasting your time. I'll just take you off the customer list for when I give out future updates.

(Which, by the way - if you order, you get lifetime access to any update I make..)

So, again - you try it out. You don't like it, you get your money back and keep the system for yourself. I think that's putting my butt on the line, don't you? Seems to work in your favor...
